Subject: 2017 Draft 3 for the SPRFMO Observer Programme CMM
Attachments: SPRFMO OBS CMM Draft3.docx

Dear OPWG,

I am providing the third revised draft (2017 draft 3) of the SPRFMO Observer Programme CMM. Apologies again for being a couple days late.

I have continued to incorporate your feedback to the best of my abilities and I have tried to resolve conflicting input in the direction of the majority of views. I have also incorporated feedback on draft 2 from the Scientific Committee.

This completes the tasks for the OPWG described in the Terms of Reference for this year. As discussed last year, in order for this to progress for consideration and adoption, the USA will likely submit this as a proposal to the CTC and annual meeting. I look forward to your continued engagement in this effort.

Regards,

Michael Tosatto
Regional Administrator
NOAA Fisheries Service, Pacific Islands Regional Office
