1 Introduction

You have been provided with access to the South Pacific Regional Fishery Management Organisation (SPRFMO) Database system as a Participant User. This gives you access to search and view South Pacific Regional Fishery Management Organisation data appropriate to your user status.

The SPRFMO Database can be accessed through the following URL:

<https://www.sprfmo.int/>

2 SPRFMO Database Access and Security

The SPRFMO Database is accessed through your web browser. The SPRFMO Database Administrator will provide you with access to the SPRFMO Database. When you have been set up as a SPRFMO Participant you will be sent your log on details and your password via email. This password will expire 24 hours after it was created. You must log into the SPRFMO Database and change the password within 24 hours of the time/date stamp on the email.

You will have been set up as either:

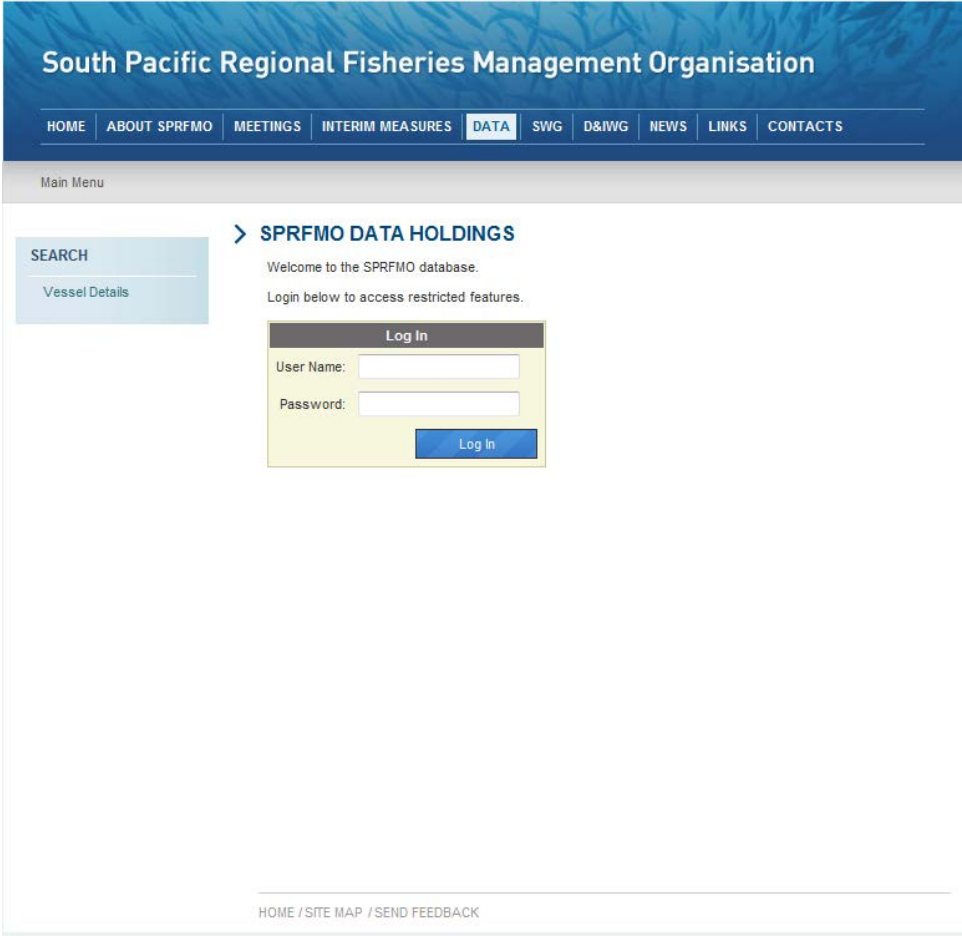

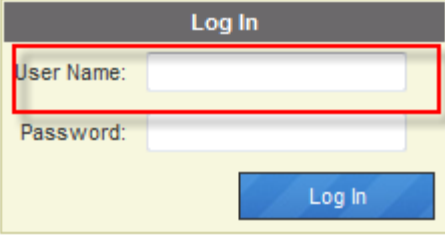

- A general Participant user, or
- A Participant Administrator user.

These two users both have access to the same information on the website, however Participant Administrators can also use the application to submit data in the standard format – refer to [Section 7](#) for more information about data submissions.

The SPRFMO website is secure and only accessible by approved users.

2.1 Logging into the SPRFMO Database

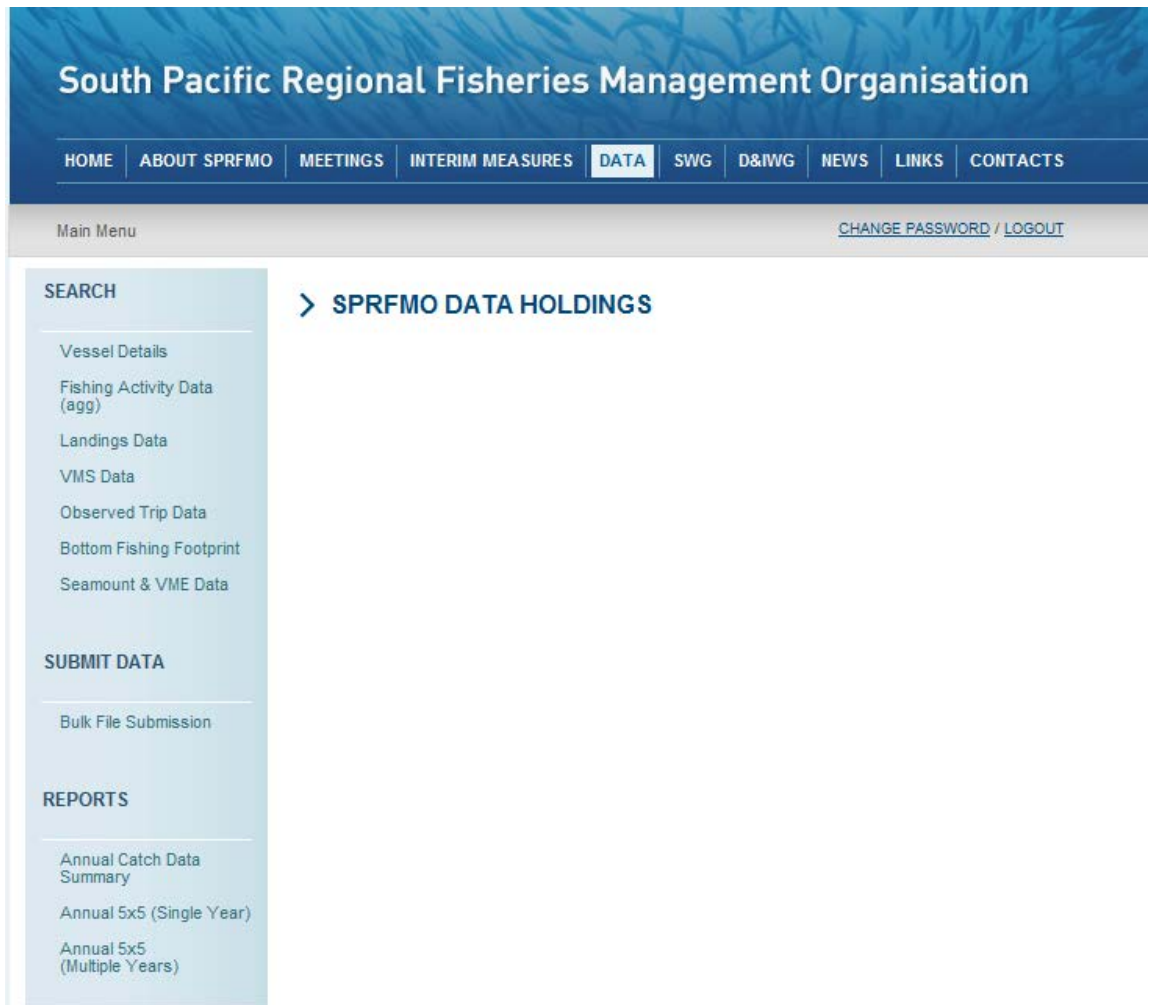

Step	Action
1	<p>When the SPRFMO Database Administrator has set you up as a SPRFMO Participant you will receive an email providing you with your login and password to access the SPRFRMO Database.</p> <p>Access the SPRFMO Database by copying and pasting the link into your web browser. You will automatically be taken to the SPFRMO website.</p> <p>https://www.sprfmo.int/</p>

	
2	<p>Log into the SPRFMO Database by entering your User Name in the User Name field</p> 
3	<p>Enter the Password provided to you in the Password field.</p> 

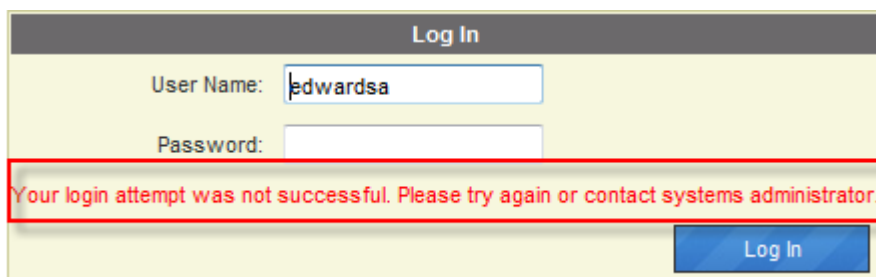

4

Click the Log In button.

If you have entered your details correctly you will be logged into the SPRFMO Database system and the SPRFMO Database main menu will open:

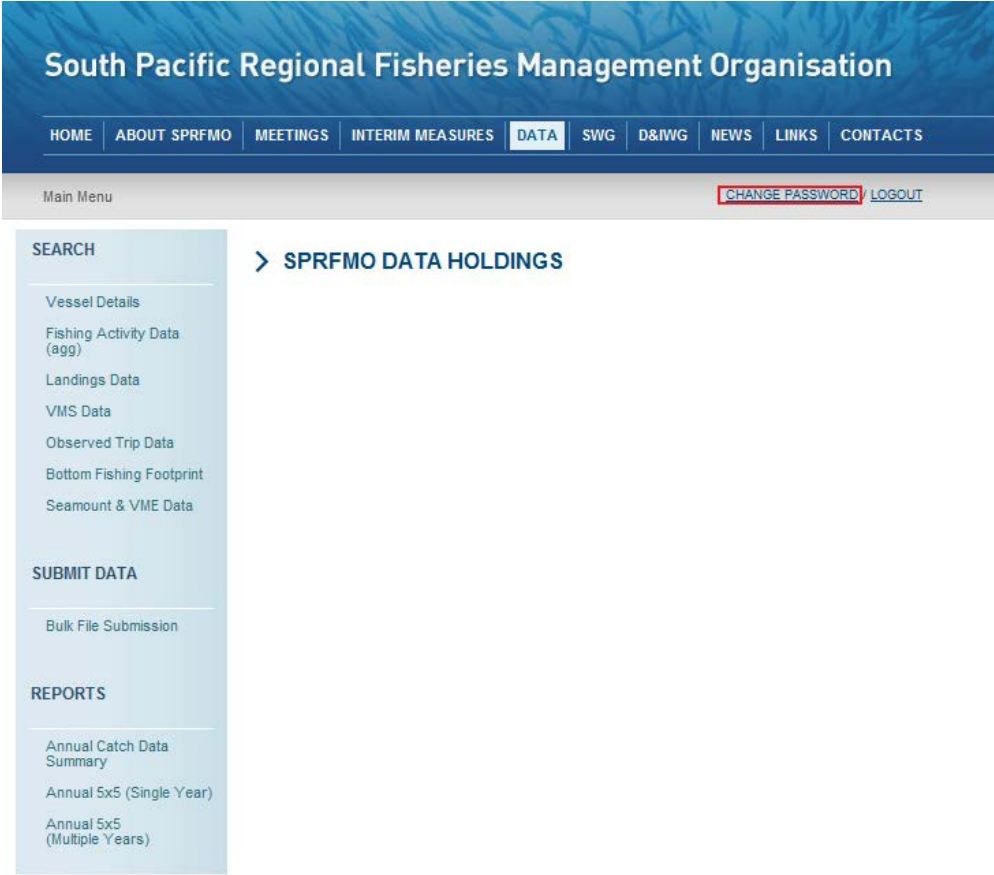

If you have entered your details incorrectly a message will be generated advising you to reenter your User Name and Password or to contact the SPRFMO Database Administrator.

2.2 Changing your Password

After logging into the SPRFMO Database for the first time you must change your password.

2.2.1 To change your password

Step	Action
1	<p>To change your password you must be logged into the SPRFMO Database.</p> <p>Click on the Change Password link in the top right hand corner of the screen.</p>  <p>The Change Password screen will open.</p>

2

Enter your current password into the Old Password field

> **SPRFMO DATA HOLDINGS**

Old password

New password

Confirm new password

3

Then enter your new password into the New Password field.

> **SPRFMO DATA HOLDINGS**

Old password

New password

Confirm new password

Confirm your new password by re-entering it in the Confirm New Password field.

> **SPRFMO DATA HOLDINGS**

Old password

New password

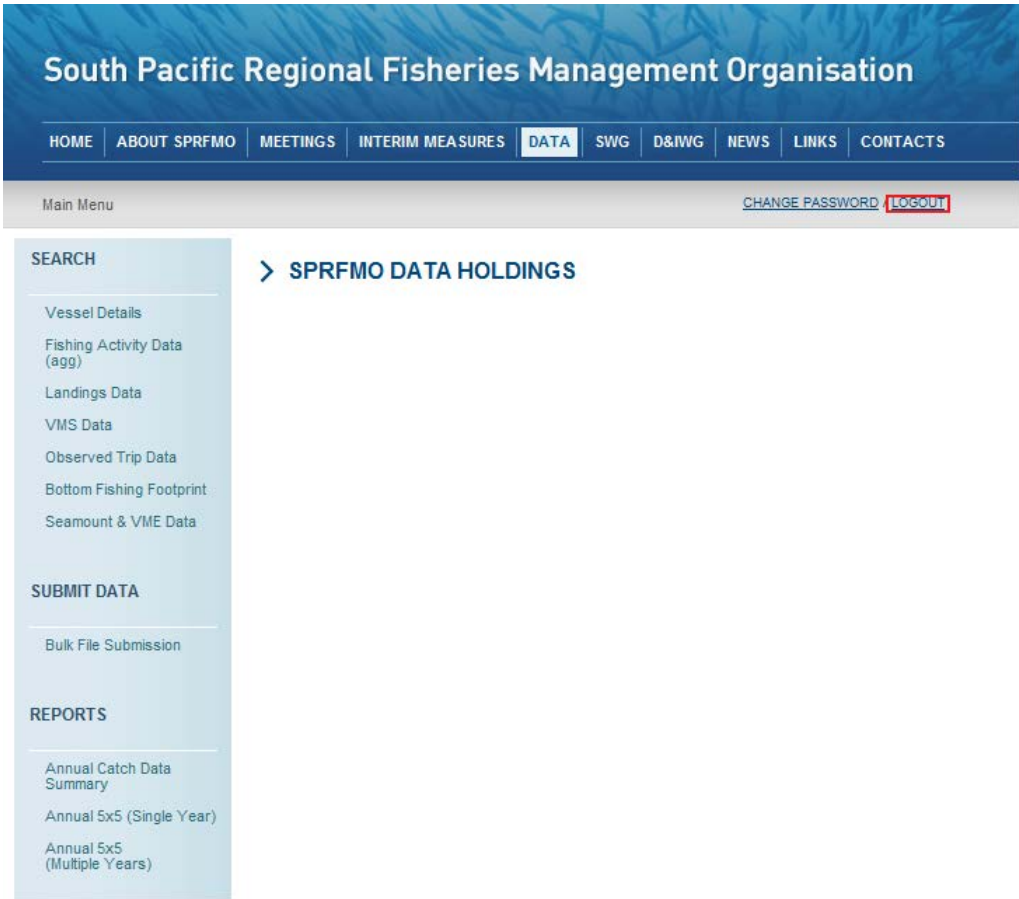

Confirm new password

Click on Save to save the new password.

2.3 Logging out

It is important that you always log out when you have finished using the SPRFMO Database. This is good security practice.

2.3.1 To log out of SPRFMO

Step	Action
1	<p>To log out of the SPRFMO Database click on the Log Out link in the top right hand corner of the screen</p>  <p>The screenshot shows the SPRFMO Database interface. At the top, there is a blue header with the text 'South Pacific Regional Fisheries Management Organisation'. Below the header is a navigation menu with links: HOME, ABOUT SPRFMO, MEETINGS, INTERIM MEASURES, DATA, SWG, D&IWG, NEWS, LINKS, CONTACTS. The 'DATA' link is highlighted. Below the navigation menu is a 'Main Menu' section with a 'CHANGE PASSWORD' link and a 'LOGOUT' link. The 'LOGOUT' link is highlighted with a red box. Below the 'Main Menu' section is a 'SEARCH' section with a list of data holdings: Vessel Details, Fishing Activity Data (agg), Landings Data, VMS Data, Observed Trip Data, Bottom Fishing Footprint, and Seamount & VME Data. Below the 'SEARCH' section is a 'SUBMIT DATA' section with a 'Bulk File Submission' link. Below the 'SUBMIT DATA' section is a 'REPORTS' section with a list of reports: Annual Catch Data Summary, Annual 5x5 (Single Year), and Annual 5x5 (Multiple Years). The 'LOGOUT' link is highlighted with a red box.</p> <p>You will be logged out of the SPRFMO Database.</p>

3 Navigating the SPRFMO Database

When you log into the SPRFMO Database the Main Menu will be displayed.

The screenshot shows the main menu of the South Pacific Regional Fisheries Management Organisation (SPRFMO) database. The header features the organization's name and a navigation bar with links: HOME, ABOUT SPRFMO, MEETINGS, INTERIM MEASURES, DATA (highlighted), SWG, D&IWG, NEWS, LINKS, and CONTACTS. Below the navigation bar, there is a 'Main Menu' label and a link for 'CHANGE PASSWORD / LOGOUT'. The main content area is divided into two sections: a left sidebar menu and a main content area. The sidebar menu is highlighted with a red border and contains the following sections: SEARCH (with links to Vessel Details, Fishing Activity Data (agg), Landings Data, VMS Data, Observed Trip Data, Bottom Fishing Footprint, and Seamount & VME Data), SUBMIT DATA (with Bulk File Submission), and REPORTS (with Annual Catch Data Summary, Annual 5x5 (Single Year), and Annual 5x5 (Multiple Years)). The main content area displays a heading '> SPRFMO DATA HOLDINGS'.

The Main Menu provides access to all Searching and Reporting functions available to SPRFMO Participant users.

Click on a link in the Main Menu to open a Search or Report.

SEARCH

[Vessel Details](#)

[Fishing Activity Data \(agg\)](#)

[Landings Data](#)

[VMS Data](#)

[Observed Trip Data](#)

[Bottom Fishing Footprint](#)

[Seamount & VME Data](#)

SUBMIT DATA

[Bulk File Submission](#)

REPORTS

[Annual Catch Data Summary](#)

[Annual 5x5 \(Multiple Years\)](#)

3.1 To return to the Main Menu

When the Report or Search screen displays the Main Menu will disappear.

At the top of each Search and Report screen a series of links is displayed. These links show where you have come from in the database. Click on a link to return to that screen.

South Pacific Regional Fisheries Management Organisation

HOME | ABOUT SPRFMO | MEETINGS | INTERIM MEASURES | **DATA** | SWG | D&IWG | NEWS | LINKS | CONTACTS

Main Menu > Vessel Search [CHANGE PASSWORD / LOGOUT](#)

> VESSEL SEARCH

This search lists vessel details currently held on the Interim Secretariat's database at the displayed date. 'Authorised' means that vessel is authorised to fish within the proposed South Pacific Regional Fisheries Management Organisation (SPRFMO) area on the displayed date.

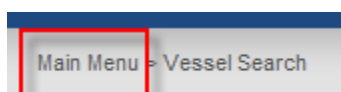

Participant: ALL
Vessel Name: ALL
Vessel Identifier: Registration Number, ALL
Vessel Type: ALL
Status: ALL
Status at Date: 30-Nov-2011

Search Back Reset

Note: The search results include all items that match the search criteria, plus those items which have no (a NULL) value specified for the search criteria. Searches (where Status = ALL) return all currently authorised vessels for all participants, plus any vessels flagged to this participant which are not currently authorised.

HOME / SITE MAP / SEND FEEDBACK

To return to the Main Menu click on the Main Menu link.

The Main Menu will open.

4 Viewing and Exporting Search Results

When you have retrieved data using one of the search functions, you can choose to view or export your search results.

4.1 Viewing and Navigating Search Results

Your search results will be displayed below the Search Criteria Fields. For all search types the results will be read only. [See the Vessel Details Search section \(5.3\) for information on how to view Vessel Search results.](#)

> FISHING ACTIVITY SEARCH (AGGREGATED)

4.1.1 Changing the Display Order of Search Results

You can change the display order of Search Results using the column headers.

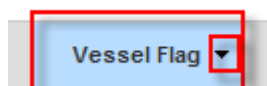

Click on the column header if you wish to change the order of search results for that column. The column header will be highlighted and an arrow will appear to the right of the column name. The results will be sorted for the page you are viewing. Note that sorting will not occur across multiple pages, you will need to sort page by page.

Search Results

Note: The search results include all items that match the search criteria, plus those items which have no (a NULL) value specified for the search criteria.

Edit	Participant	Vessel Flag ▼	Vessel Name	Registration Number	Position Latitude	Position Longitude	P
------	-------------	---------------	-------------	---------------------	-------------------	--------------------	---

Click on the arrow to choose ascending or descending order (the default is ascending order).

Your search results will be reordered on the current page.

4.1.2 Navigation

The search results will appear in a grid. The grid displays a number of fields from the Vessel record. If the grid runs off your screen use the horizontal and/or vertical scrolling bar to move the grid across to view all columns.

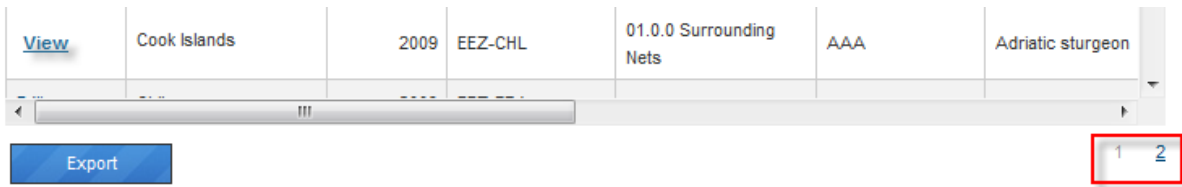

Search Results

Note: The search results include all items that match the search criteria, plus those items which have no (a NULL) value specified for the search criteria.

	Participant	Year	Area / 5x5 Degree Square	Fishing Method	Species / Group Code	Species / Group Name	Catch Flag Code	Catch Weight (Kg)
View	Cook Islands	1965	EEZ-COK	02.9.0 Seine Nets (not specified)	CJM	Chilean jack mackerel	U	
View	Cook Islands	1966	EEZ-COK	02.9.0 Seine Nets (not specified)	CJM	Chilean jack mackerel	L	
View	Cook Islands	1967	EEZ-COK	02.9.0 Seine Nets	CJM	Chilean jack	E	

4.1.3 Page Numbers

Where the search results exceed one page, the page numbers at the bottom of the screen allow you to quickly navigate between the search results pages.

4.2 Exporting Search Results

4.2.1 Exporting your Search Results

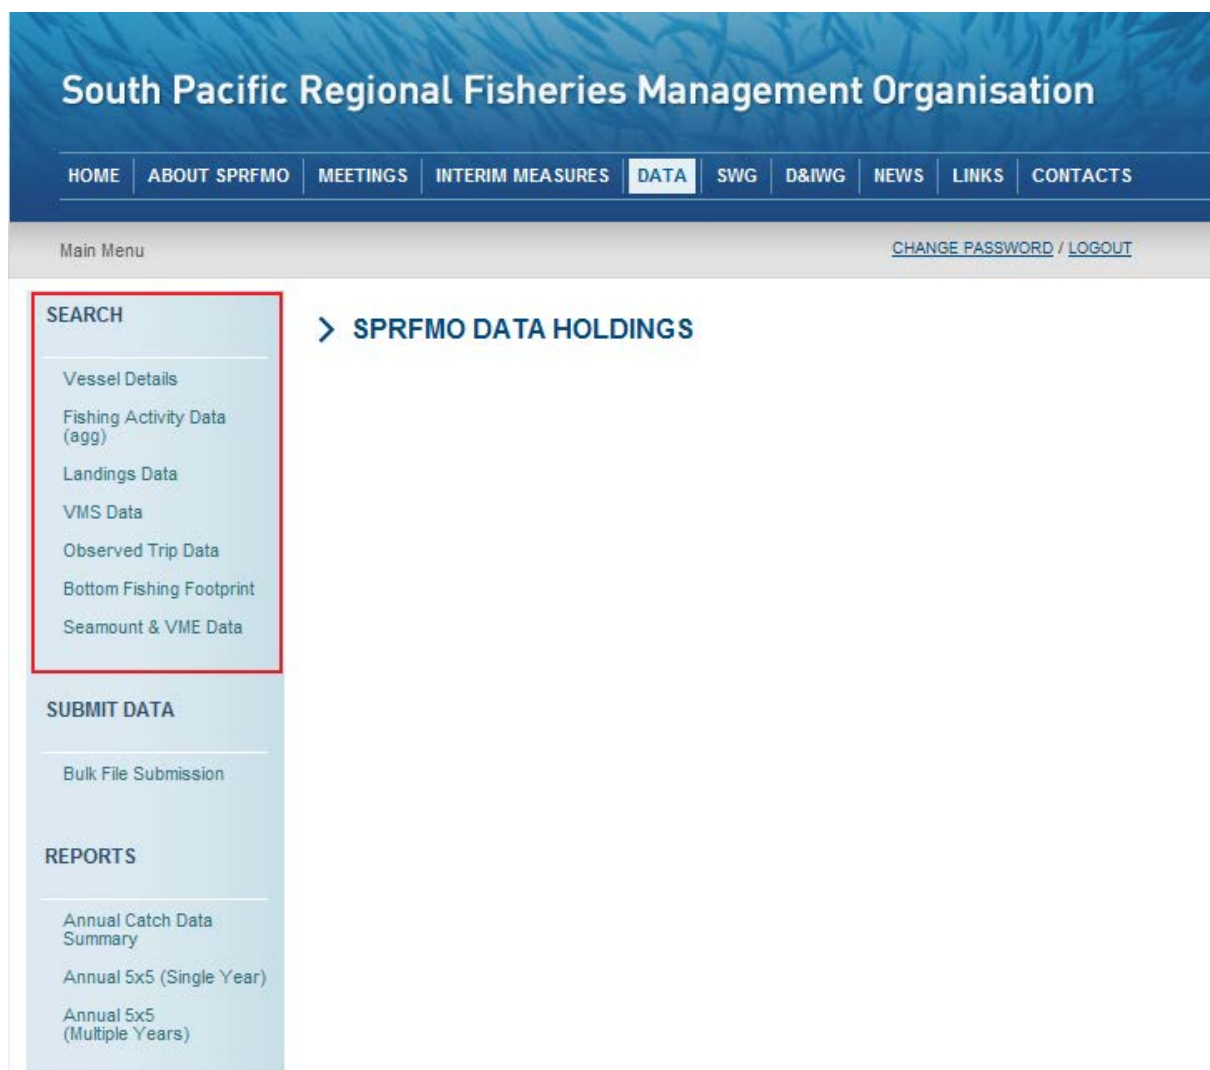

Click on the Export button to export your results to Excel.

5 Searching

5.1 Introduction

There are a number of searches available in the SPRFMO Database system that can be used to search the data holdings. Searches can be accessed from the left hand menu after logging into the SPRFMO Database.

The screenshot displays the South Pacific Regional Fisheries Management Organisation (SPRFMO) website. The header features the organization's name and a navigation menu with links for HOME, ABOUT SPRFMO, MEETINGS, INTERIM MEASURES, DATA (highlighted), SWG, D&IWG, NEWS, LINKS, and CONTACTS. Below the header, there is a 'Main Menu' section with a 'CHANGE PASSWORD / LOGOUT' link. The left-hand navigation menu is highlighted with a red border and contains the following sections:

- SEARCH**
 - Vessel Details
 - Fishing Activity Data (agg)
 - Landings Data
 - VMS Data
 - Observed Trip Data
 - Bottom Fishing Footprint
 - Seamount & VME Data
- SUBMIT DATA**
 - Bulk File Submission
- REPORTS**
 - Annual Catch Data Summary
 - Annual 5x5 (Single Year)
 - Annual 5x5 (Multiple Years)

To the right of the search menu, the text '> SPRFMO DATA HOLDINGS' is displayed.

Select the search you wish to access by clicking on the appropriate link.

The search screen will open.

5.1.1 Search Buttons

The following Search Buttons are available on each search screen:

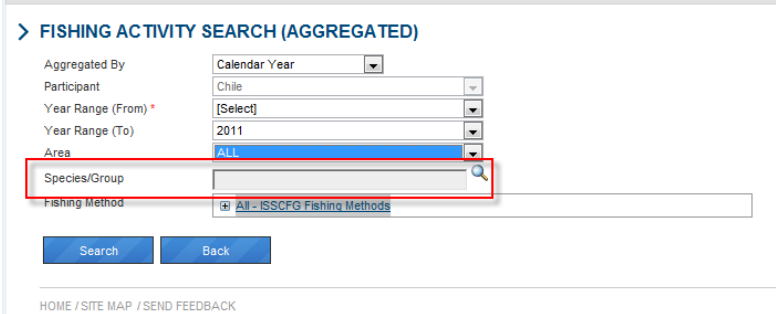

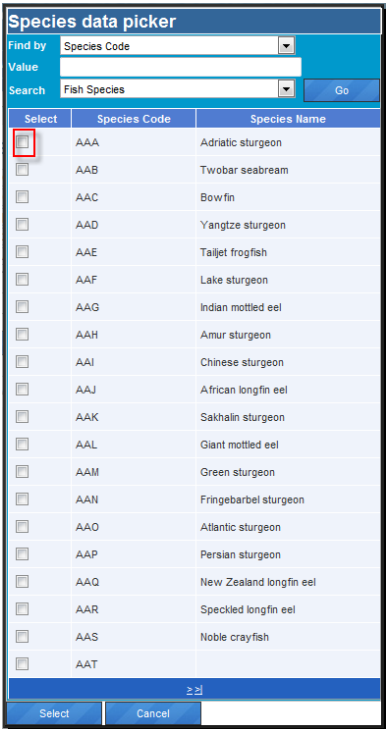

Button	Function
Search	Executes the search.
Back	Returns to the last screen.
Reset	Resets the search fields to the default.

5.2 Using the Species and Calendar Pickers

5.2.1 Using the Species Data Picker

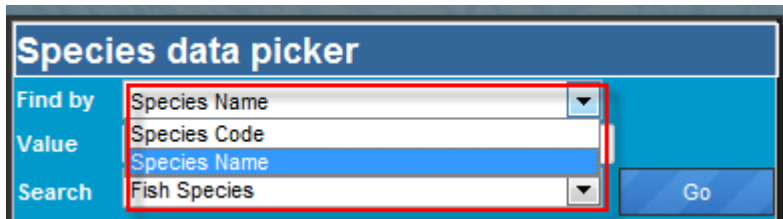

The Species Data Picker is a tool used to populate search fields that require species or species group codes. Either single or multiple codes may be selected. The species picker contains the list of all 3-letter species codes currently in use by the Food and Agriculture Organisation (FAO).

5.2.1.1 To use the Species Data Picker

Step	Action
1	<p>Open the Species Data Picker by clicking on the  to the right of the Species/Group field</p>  <p>The screenshot shows a web form titled "FISHING ACTIVITY SEARCH (AGGREGATED)". It contains several dropdown menus: "Aggregated By" (set to "Calendar Year"), "Participant" (set to "Chile"), "Year Range (From)" (set to "[Select]"), "Year Range (To)" (set to "2011"), and "Area" (set to "ALL"). The "Species/Group" field is highlighted with a red box, and a magnifying glass icon is positioned to its right. Below these fields is a "Fishing Method" dropdown set to "All - ISSCFG Fishing Methods". There are "Search" and "Back" buttons at the bottom of the form. At the very bottom of the page, there are links for "HOME / SITE MAP / SEND FEEDBACK".</p>
2	<p>The Species Data Picker will open.</p>  <p>The screenshot shows a dialog box titled "Species data picker". It has a "Find by" dropdown set to "Species Code" and a "Value" input field. Below that is a "Search" dropdown set to "Fish Species" and a "Go" button. The main part of the dialog is a table with three columns: "Select", "Species Code", and "Species Name". The first row is highlighted, and its "Select" checkbox is checked and highlighted with a red box. The table lists various species codes and names, including Adriatic sturgeon, Twobar seabream, Bow fin, Yangtze sturgeon, Taljet frogfish, Lake sturgeon, Indian mottled eel, Amur sturgeon, Chinese sturgeon, African longfin eel, Sakhalin sturgeon, Giant mottled eel, Green sturgeon, Fringebarbel sturgeon, Atlantic sturgeon, Persian sturgeon, New Zealand longfin eel, Speckled longfin eel, Noble crayfish, and AAT. At the bottom of the table are "Select" and "Cancel" buttons.</p>

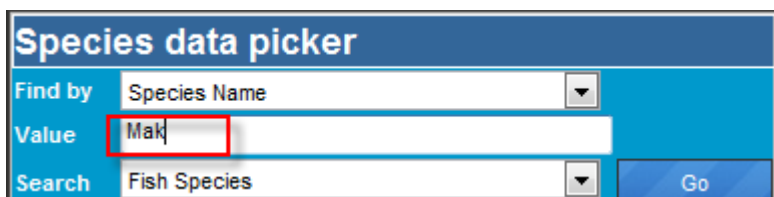

Then select one or a number of Species/Group from the Species Data Picker by clicking on the box in the Select column to the left of the Species Code.

You can use the Find By drop down box at the top of the Species Data Picker to locate Species by either Species Code or Species Name.

The screenshot shows the 'Species data picker' window. It has a blue header. Below the header, there are three rows: 'Find by' with a dropdown menu showing 'Species Name', 'Value' with a text input field containing 'Species Code', and 'Search' with a dropdown menu showing 'Fish Species'. A blue 'Go' button is located to the right of the 'Search' dropdown.

Enter part of or the Species Code or Species name or code you wish to locate into the Value field and click on Go. All Species Codes or Names containing the text will be returned.

The screenshot shows the 'Species data picker' window. It has a blue header. Below the header, there are three rows: 'Find by' with a dropdown menu showing 'Species Name', 'Value' with a text input field containing 'Mak', and 'Search' with a dropdown menu showing 'Fish Species'. A blue 'Go' button is located to the right of the 'Search' dropdown.

You can navigate through the Species Data Picker by using the arrows at the bottom of the screen to move to the next page or return to the previous page.

3

Once you have selected the Species/Groups, click on Select to populate the Species/Groups field with the Species/Groups you have selected. (Click on Cancel if you want to close the Species Data Picker without populating the Species/Group search field.)

5.2.1.2 Searching by Species Code

Species data picker

Find by: Species Code
 Value: BL
 Search: Fish Species Go

Select	Species Code	Species Name
<input type="checkbox"/>	ABL	Attentive carpet
<input type="checkbox"/>	BBL	Hairy toadfish

5

5.2.1.4 To remove unwanted codes

If you no longer wish to use the Species Codes you have selected you can remove these codes by clicking on the magnifying glass  icon to the right of the field.

The Species Picker will open. Remove the codes by removing the ticks from the tick boxes to the left of the codes. You can remove a tick by clicking on the tick box.

Select	Species Code	Species Name
<input checked="" type="checkbox"/>	ANI	Mackerel icefish
<input type="checkbox"/>	ASM	Australian spotted mackerel
<input type="checkbox"/>	ATK	Okhotsk atka mackerel
<input type="checkbox"/>	BBM	Broad-barred king mackerel
<input type="checkbox"/>	BRS	Serra Spanish mackerel
<input checked="" type="checkbox"/>	CJM	Chilean jack mackerel
<input type="checkbox"/>	COM	Narrow-barred Spanish mackerel
<input type="checkbox"/>	DBM	Double-lined mackerel
<input type="checkbox"/>	GEP	Snake mackerels, escolares nei
<input type="checkbox"/>	GES	Snake mackerel
<input type="checkbox"/>	GUT	Indo-Pacific king mackerel
<input type="checkbox"/>	HMC	Cape horse mackerel
<input type="checkbox"/>	HMG	Greenback horse mackerel
<input type="checkbox"/>	HMM	Mediterranean horse mackerel
<input type="checkbox"/>	HMZ	Cunene horse mackerel
<input type="checkbox"/>	HOM	Atlantic horse mackerel
<input type="checkbox"/>	HUM	Atka mackerel
<input type="checkbox"/>	JAA	Blue jack mackerel
<input type="checkbox"/>	JAX	Jack and horse mackerels nei
<input type="checkbox"/>	JJM	Japanese jack mackerel

≥ ≤

Click on Select to confirm you wish to remove these codes.

Select

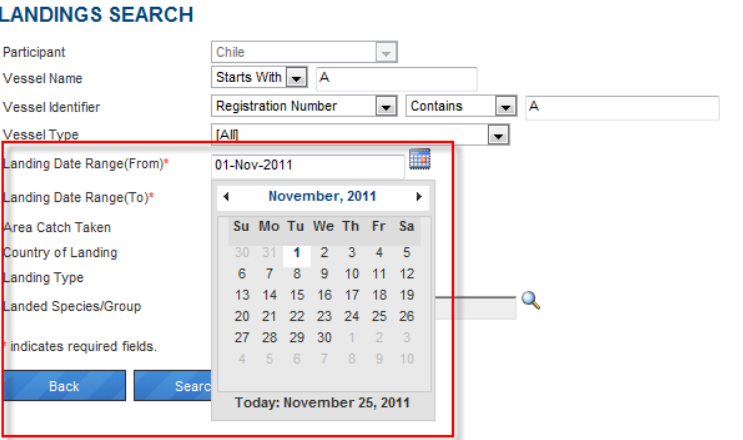

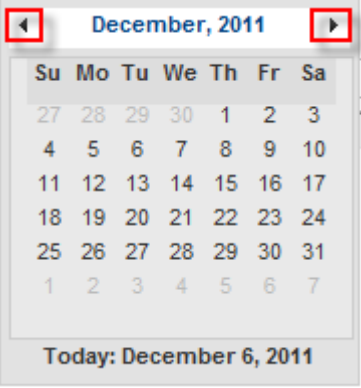

The Species Picker will close. The codes will be removed from the Species search field.

5.2.2 Using the Calendar Picker

The Calendar Picker is a tool used to populate search fields where you are required to input a date (day, month and year)

Please note: you can type the date into the field rather than use the Calendar Picker. The required format is DD-Mmm-YYYY (e.g. 03-Jul-2011).

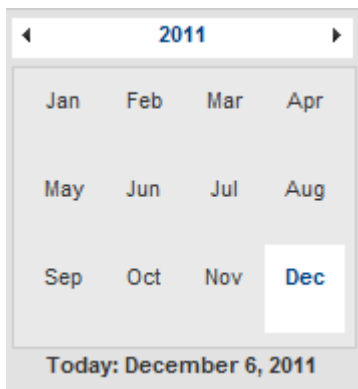

5.2.2.1 To use the Calendar Picker

Step	Action
1	<p>Click on the Calendar icon  to launch the Calendar Picker.</p>  <p>The Calendar Picker will open. The current month is the default.</p>
2	<p>Use the arrows on either side of the month to navigate back and forward between months.</p>  <p>Use the  arrow to navigate to months in the past or to navigate back.</p> <p>Use the  arrow to navigate to months in the future or to navigate forward.</p>

To change the year, click on the name of the month.

The Calendar Picker will open in the Month/Year view.

Use the arrows on either side of the year to navigate back and forward between years.

Use the  arrow to navigate to years in the past or to navigate back.

Use the  arrow to navigate to years in the future or to navigate forward.

You can also use this view to select the month. Locate the year you require and click on the month name.

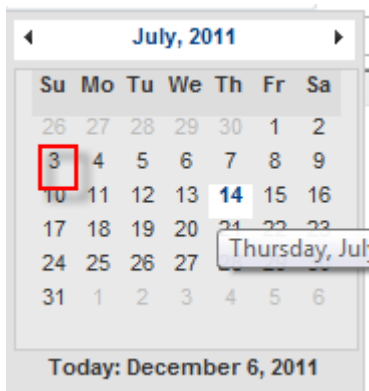

The Calendar Picker will open in Day/Month view.

3

When you have located the date, click on the date to select

The Calendar Picker will close and the search field will now be populated with the date selected.

5.3 Vessel Details Search

You can use the Vessel Details search to search for Vessels listed in the SPRFMO database.

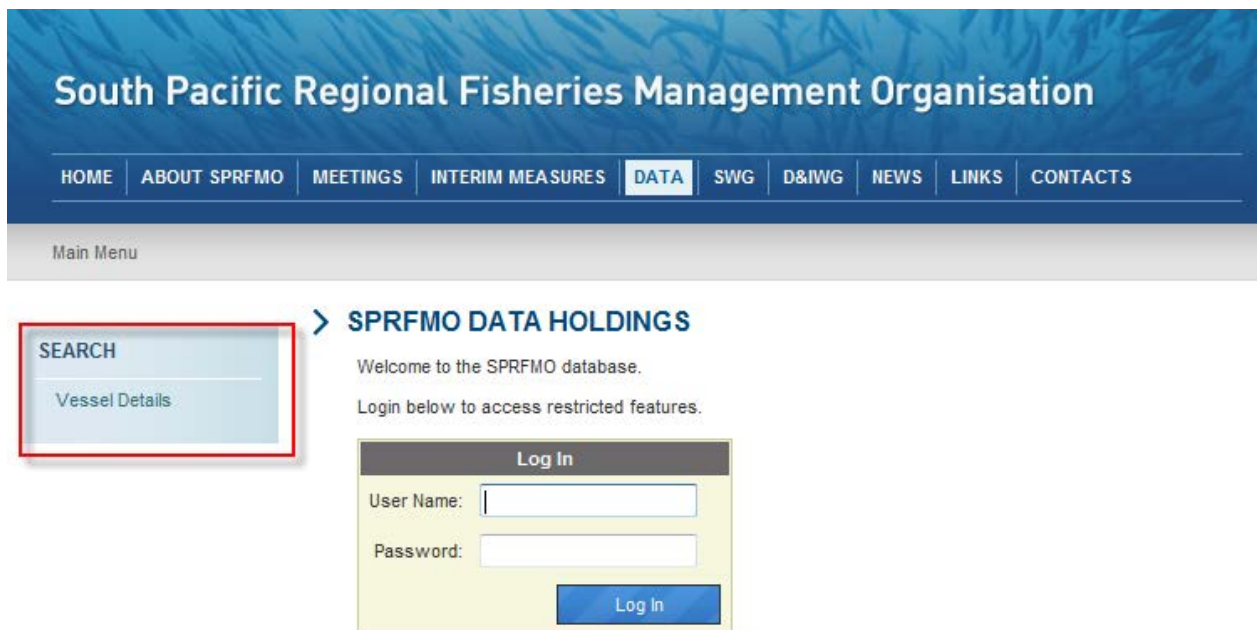

There are two Vessel Searches.

1. The Authorised (only) Vessel Search can be used by anyone, including the public.
You do not need to be logged into the SPRFMO database to access and use this search.
2. The Participant Vessel Search can only be accessed by SPRFMO Participant and Participant Admin users.
You must be logged into the SPRFMO database to access this search.

5.3.1 Authorised (only) Vessel Details Search (Public access)

The Authorised (only) Vessel Details Search can be accessed from the SPRFMO log in page. You do not need to log in to access this search.

It displays the list of all vessels authorised at today's date, as well as summary vessel information for each vessel listed.

The screenshot shows the South Pacific Regional Fisheries Management Organisation (SPRFMO) website. The header features the organization's name and a navigation menu with links: HOME, ABOUT SPRFMO, MEETINGS, INTERIM MEASURES, DATA, SWG, D&IWG, NEWS, LINKS, and CONTACTS. Below the header is a 'Main Menu' section. On the left, a 'SEARCH' box is highlighted with a red border, containing a search bar and the text 'Vessel Details'. To the right, the 'SPRFMO DATA HOLDINGS' section is visible, with a welcome message and a login form. The login form includes fields for 'User Name' and 'Password', and a 'Log In' button.

5.3.2 The Authorised (only) Vessel Search

South Pacific Regional Fisheries Management Organisation

HOME | ABOUT SPRFMO | MEETINGS | INTERIM MEASURES | **DATA** | SWG | D&IWG | NEWS | LINKS | CONTACTS

Main Menu > Vessel Search

> VESSEL SEARCH (AUTHORISED LIST)

This search lists vessel details currently held on the Interim Secretariat's database at the displayed date. 'Authorised' means that vessel is authorised to fish within the proposed South Pacific Regional Fisheries Management Organisation (SPRFMO) area on the displayed date.

Participant: ALL

Vessel Name: ALL

Vessel Identifier: Registration Number, ALL

Vessel Type: ALL

Status: Authorised

Status at Date: 14-Dec-2011

Search Back Reset

Note: The search results include all items that match the search criteria, plus those items which have no (a NULL) value specified for the search criteria. Searches return all currently authorised vessels for all participants.

HOME / SITE MAP / SEND FEEDBACK

5.3.3 Vessel Details Search (Participant access only)

Participants can use this screen search for their own vessels' details (whether the vessel is currently authorised or not), as well as basic information about authorised vessels (only) of other participants. You must log into SPRFMO to access this search.

To access the search click on Vessel Details (see step 1 below) from the Main Menu.

> VESSEL SEARCH

This search lists vessel details currently held on the Interim Secretariat's database at the displayed date. 'Authorised' means that vessel is authorised to fish within the proposed South Pacific Regional Fisheries Management Organisation (SPRFMO) area on the displayed date.

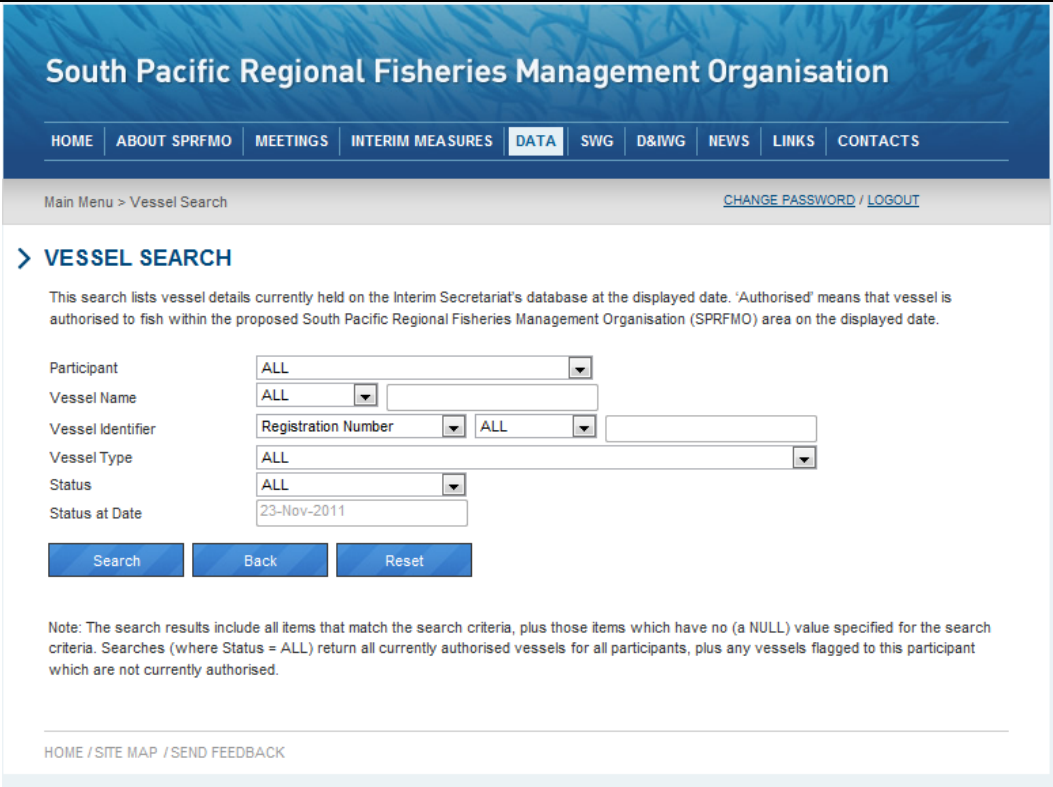

Participant	<input type="text" value="ALL"/>
Vessel Name	<input type="text" value="ALL"/> <input type="text"/>
Vessel Identifier	<input type="text" value="Registration Number"/> <input type="text" value="ALL"/> <input type="text"/>
Vessel Type	<input type="text" value="ALL"/>
Status	<input type="text" value="ALL"/>
Status at Date	<input type="text" value="02-Dec-2011"/>

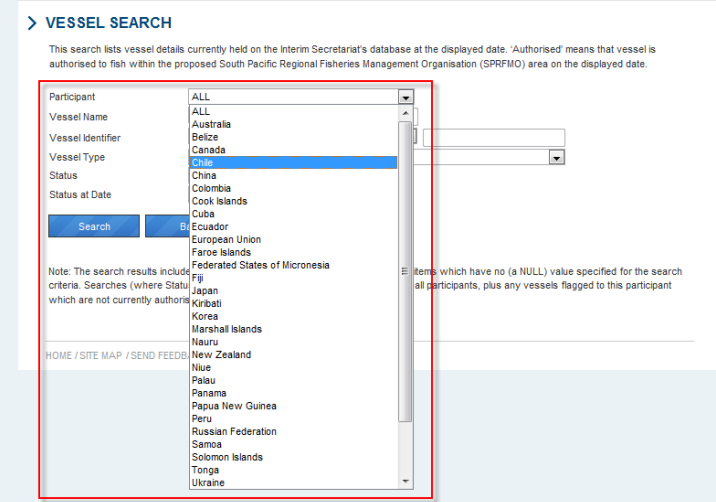

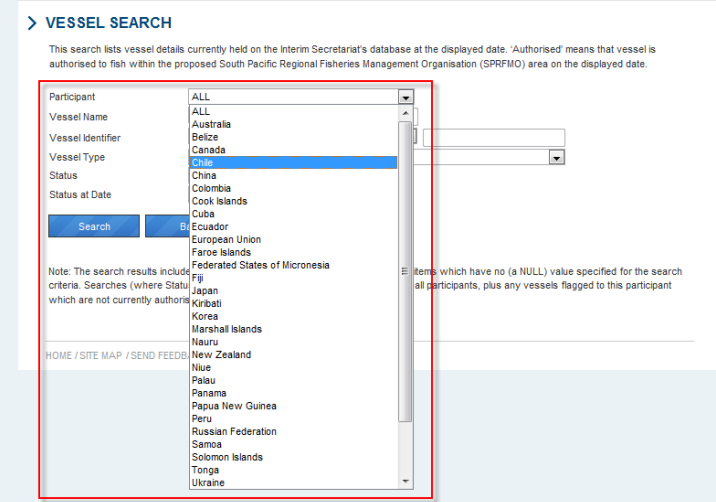

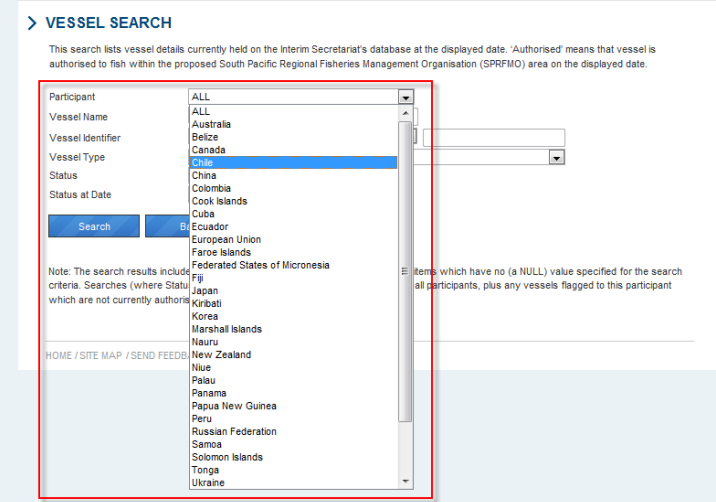

Note: The search results include all items that match the search criteria, plus those items which have no (a NULL) value specified for the search criteria. Searches (where Status = ALL) return all currently authorised vessels for all participants, plus any vessels flagged to this participant which are not currently authorised.

5.4 Catch (Fishing Activity) Data Search

You can use the Fishing Activity Data Search to locate annual catch data held in the SPRFMO Database.

Alternatively, you can also try viewing a summary of each participants' annual catch data using the standard reports available - see Sections 6.3 and 6.4.

Participants can see their own aggregated catch data only. You cannot search for or view data that belongs to other Participants.

There are two types of catch data available:

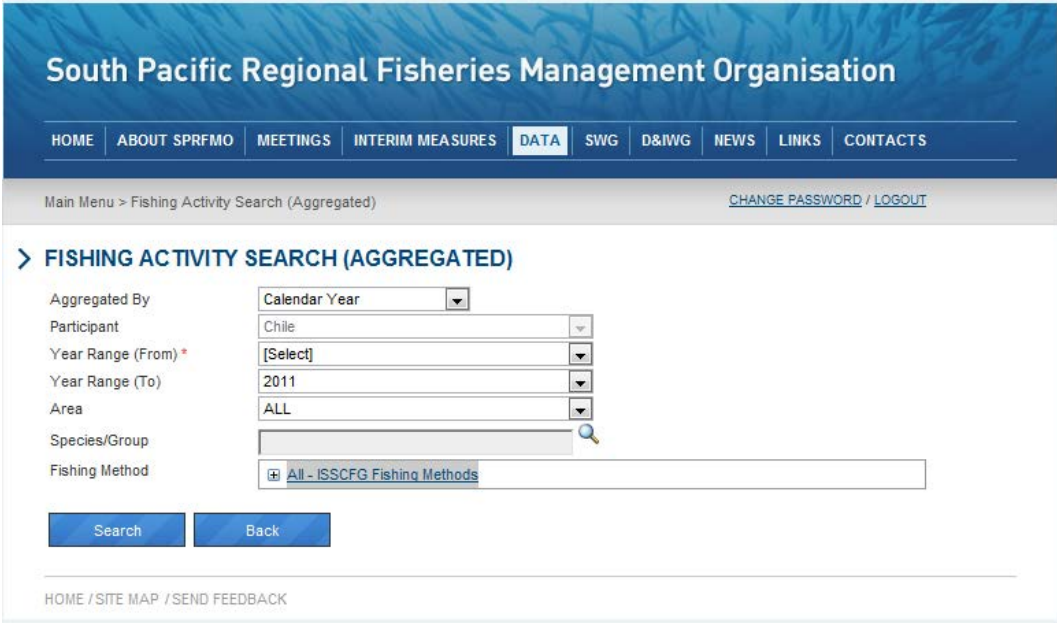

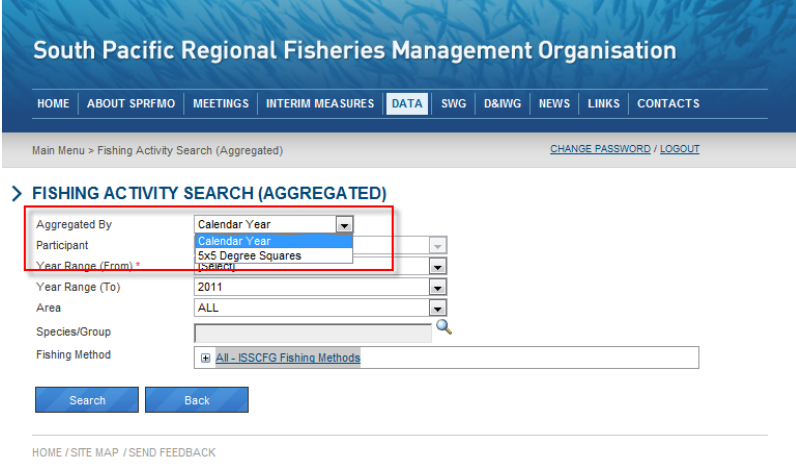

1. Calendar Year
These are catch data displayed by calendar year,

Or

2. 5x5 Degree Squares.
These are catch data that are displayed by 5 degree latitude by 5 degree longitude squares for a specific year.

5.4.1 How to use the Catch (Fishing Activity Data - Aggregated) Search

Step	Action
1	<p data-bbox="335 347 1220 380">Click on the Fishing Activity Data (agg) link in the left hand navigation bar.</p> <div data-bbox="335 425 646 1366"><p>The screenshot shows a light blue navigation sidebar. At the top is the heading 'SEARCH' followed by a horizontal line. Below the line are several menu items: 'Vessel Details', 'Fishing Activity Data (agg)', 'Landings Data', 'VMS Data', 'Observed Trip Data', 'Bottom Fishing Footprint', and 'Seamount & VME Data'. The 'Fishing Activity Data (agg)' item is enclosed in a red rectangular box. Below these items is the heading 'SUBMIT DATA' followed by another horizontal line and the item 'Bulk File Submission'. At the bottom is the heading 'REPORTS' followed by a horizontal line and three items: 'Annual Catch Data Summary', 'Annual 5x5 (Single Year)', and 'Annual 5x5 (Multiple Years)'.</p></div> <p data-bbox="335 1422 917 1456">The Fishing Activity Catch Data Search will open.</p>

Step	Action
	 <p>The screenshot shows the 'FISHING ACTIVITY SEARCH (AGGREGATED)' form. The 'Aggregated By' dropdown menu is currently set to 'Calendar Year'. Other fields include 'Participant' (Chile), 'Year Range (From)' ([Select]), 'Year Range (To)' (2011), 'Area' (ALL), and 'Fishing Method' (All - ISSCFG Fishing Methods). There are 'Search' and 'Back' buttons at the bottom of the form.</p>
2	<p>Select how you want the catch data to be aggregated</p> <p>The default for this field is Calendar Year. Leave the default and search for records that are aggregated by Calendar Year or select 5x5 Degree Squares from the drop down list.</p>  <p>The screenshot shows the 'FISHING ACTIVITY SEARCH (AGGREGATED)' form with the 'Aggregated By' dropdown menu open. The menu options are 'Calendar Year' and '5x5 Degree Squares'. The '5x5 Degree Squares' option is highlighted in blue. The other fields and buttons are the same as in the previous screenshot.</p> <p>The type of Aggregation you select (Calendar Year or 5x5 Degree Squares) will define the search fields.</p> <p>If you select Calendar Year you will be required to define your search criteria by entering a range of years and you may restrict your selection by choosing an area, a species or a fishing method. See Searching by Calendar year for more information.</p> <p>If you select 5x5 Degree Squares you will be required to enter a range of years and you may restrict your selection further by choosing a range of coordinates, a vessel name, a species or a fishing method. See Searching by 5x5 Degree Squares for more information.</p>

5.4.1.1 Searching by Calendar Year

Step	Action						
1	<p>If you have chosen to search by Calendar Year you will have the following search criteria available:</p>  <table border="1" data-bbox="341 1122 1390 1460"> <thead> <tr> <th data-bbox="341 1122 616 1173">Search field</th> <th data-bbox="616 1122 1390 1173">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="341 1173 616 1352">Participant</td> <td data-bbox="616 1173 1390 1352">This shows your Participant name. 5.4.1.2 To Search for Catch Submitted by 5x5 Degree Square

Follow the steps below or alternatively use one of the Standard 5x5 Ctach reports available – see Section 6.4

Step	Action
1	<p>If you have chosen to search by 5x5 Degree Squares you will have the following search criteria available:</p>  <p>HOME / SITE MAP / SEND FEEDBACK</p>
<p>Search field</p>	<p>Description</p>
<p>Participant</p>	<p>This shows your Participant name. You can only search for your own 5x5 catch data.</p> 
<p>Year Range (From)*</p>	<p>This is a mandatory field (indicated by the red star). Use the drop down list to select the earliest year that you want data from. The default is blank so you must choose a year.</p>

Year Range (To)

You can use the drop down list to select the latest year that you want data from. The default is the current year.

NW Corner (Latitude)

Select from the drop down boxes the Latitude of the top left hand corner of the search rectangle (between 90 degrees North and 90 degrees South).

NW Corner (Longitude)

Select from the drop down boxes the Longitude of the of the top left hand corner of the search rectangle (between 5 degrees East and 5 degrees West).

SE Corner (Latitude)

Select from the drop down boxes the Latitude of the bottom right hand corner of the search rectangle (between 90 degrees North and 90 degrees South).

SE Corner (Longitude)

Select from the drop down boxes the Longitude of the bottom right hand corner of the search rectangle (between 5 degrees East and 5 degrees West). The default coordinates cover almost the entire globe.

Vessel Name

The default for this field is All. Leave the default and search for all Vessel Names or select one of the Search Types from the drop down list:

Search type	Description
All	Use this if you want the search to return all Vessel Names that meet your criteria. Selecting All will disable the free text field.
Starts With	Use this if you wish to search using the start of the Vessel's name
Contains	Use this if you wish to search by entering part of the Vessel's name
Matches	Use if you wish to search by entering the Vessel's name exactly as it is recorded in the SPRFMO database.

5.5 Landings Data Search

PLEASE NOTE: THE LANDINGS DATA SEARCH IS STILL UNDER DEVELOPMENT AND NO DATA ARE CURRENTLY AVAILABLE IN THIS MODULE.

You can use the Landings Data Search to locate Landings records held in the SPRFMO Database. Only records that match your Participant Name will be returned. You cannot search for or view records that belong to other Participants.

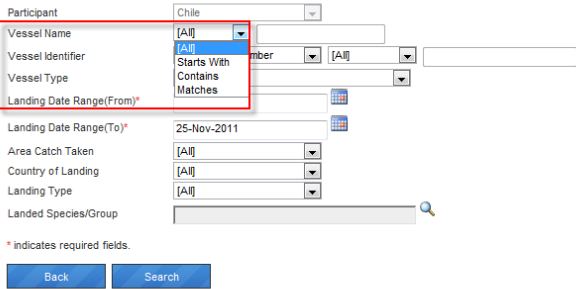

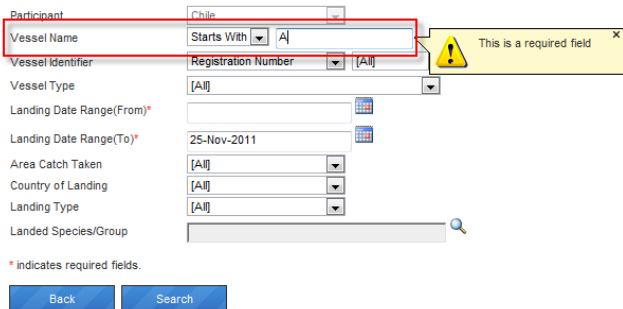

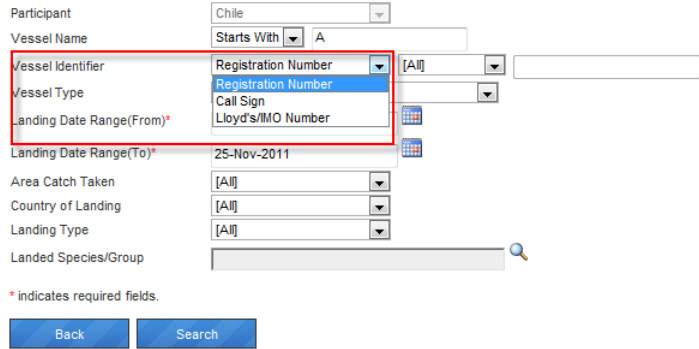

5.5.1 How to use the Landings Data Search

Step	Action
1	<p data-bbox="336 651 1078 680">Click on the Landings Data link in the left hand navigation bar.</p> <div data-bbox="341 725 655 1666">A screenshot of a navigation menu with a light blue background. The menu is organized into sections: 'SEARCH', 'SUBMIT DATA', and 'REPORTS'. Under 'SEARCH', there are links for 'Vessel Details', 'Fishing Activity Data (agg)', 'Landings Data' (which is highlighted with a red rectangular box), 'VMS Data', 'Observed Trip Data', 'Bottom Fishing Footprint', and 'Seamount & VME Data'. Under 'SUBMIT DATA', there is a link for 'Bulk File Submission'. Under 'REPORTS', there are links for 'Annual Catch Data Summary', 'Annual 5x5 (Single Year)', and 'Annual 5x5 (Multiple Years)'.<p data-bbox="336 1720 770 1749">The Landings Data Search will open.</p></div>

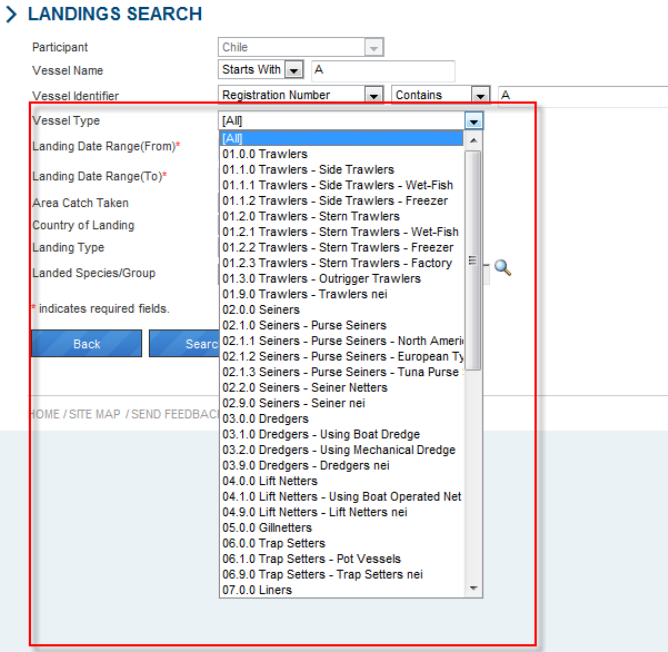

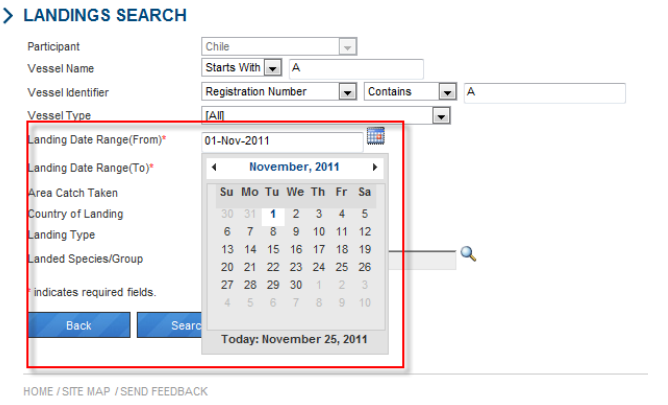

Step	Action

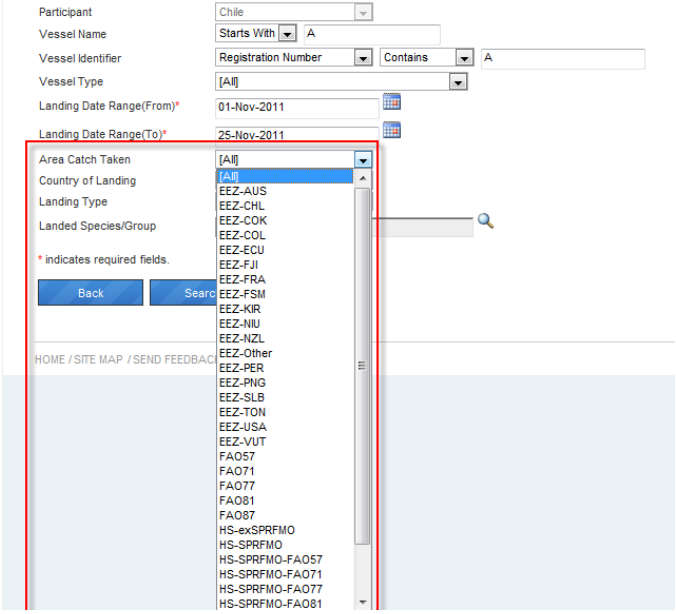

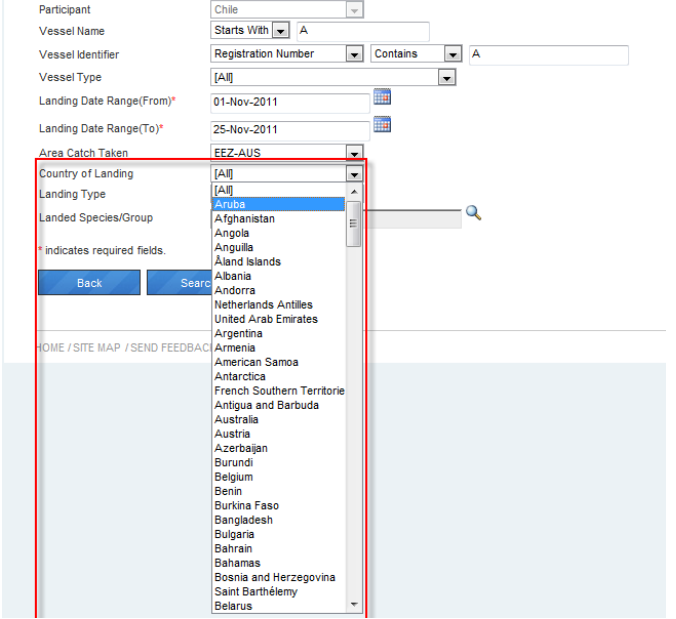

The following search fields are available:

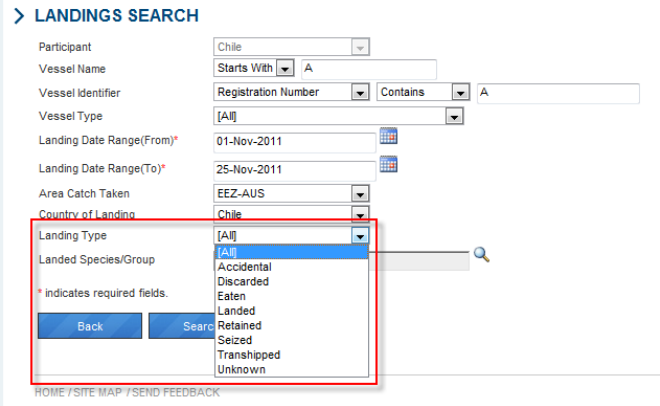

Search field	Description										
Participant	This shows your Participant name. You can only search for your own Landings data.										
Vessel Name	<p>The default for this field is All. Leave the default and search for all Vessel Names or select one of the Search Types from the drop down list:</p> <table border="1"> <thead> <tr> <th>Search type</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>All</td> <td>Use this if you want the search to return all Vessel Names that meet your criteria. Selecting All will disable the free text field.</td> </tr> <tr> <td>Starts With</td> <td>Use this if you wish to search by entering the start of the Vessel's name.</td> </tr> <tr> <td>Contains</td> <td>Use this if you wish to search by entering part of the Vessel's name.</td> </tr> <tr> <td>Matches</td> <td>Use this if you wish to search by entering the Vessel's name exactly as it is recorded in the SPRFMO Database.</td> </tr> </tbody> </table>	Search type	Description	All	Use this if you want the search to return all Vessel Names that meet your criteria. Selecting All will disable the free text field.	Starts With	Use this if you wish to search by entering the start of the Vessel's name.	Contains	Use this if you wish to search by entering part of the Vessel's name.	Matches	Use this if you wish to search by entering the Vessel's name exactly as it is recorded in the SPRFMO Database.
Search type	Description										
All	Use this if you want the search to return all Vessel Names that meet your criteria. Selecting All will disable the free text field.

This field is mandatory.</p>
	Landing Date Range (To)	<p>This field will default to the current date. Select an earlier date by launching the Calendar Picker and selecting a date or entering a date in the format DD-Mmm-YYYY e.g. 01-Dec-2011.</p>

Step	Action	
	<p>Area Catch Taken</p>	<p>To find data only from a particular area, you may select an Area Code from the drop down list. EEZ in an area code indicates that an area is part of the EEZ of a participant, FAO indicates that an area is identified by the Food and Agriculture Organisation and HS indicates that an area is identified as a high seas area Please refer to Appendix A: Area Codes.</p> <p>> LANDINGS SEARCH</p> 
	<p>Country of Landing</p>	<p>This field will default to All or enter the Country of Landing by selecting a country from the drop down list.</p> <p>> LANDINGS SEARCH</p> 
	<p>Landing Type</p>	<p>This field will default to All or enter the Landing Type by selecting a Landing Type from the drop down list.</p>

Step	Action	
		
	Landed Species/Group	Use the Species Data Picker to select the Species/Group. See the section on Using the Species Data Picker for more information.
2	<p>When you have entered your search criteria, click on Search.</p>  <p>The screen will refresh and display your results.</p> <p>If no results are returned try broadening or altering your search criteria.</p>	

5.6 Viewing Landings Data Search Results

PLEASE NOTE: THE LANDINGS DATA SEARCH IS STILL UNDER DEVELOPMENT AND NO DATA ARE CURRENTLY AVAILABLE IN THIS MODULE.

Your search results will be displayed below the Landings Data Search. From the Landings Data Search screen you can view or export your search results. As you are logged in as a Participant user the results are read only and cannot be edited.

[See the Section 4 on Viewing and Exporting your Search Results for further information.](#)

5.7 Observed Trip Data Search

You can use the Observed Trip Data search to locate Observer Trip records held in the SPRFMO Database. You can only view your own participant records. You cannot search for or view records that belong to other Participants.

5.7.1 How to use the Observed Trip Data Search

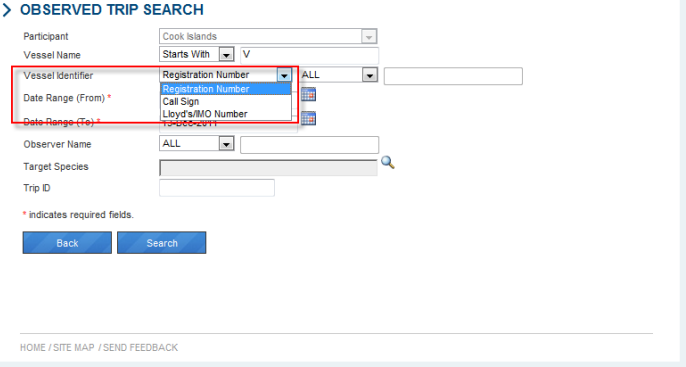

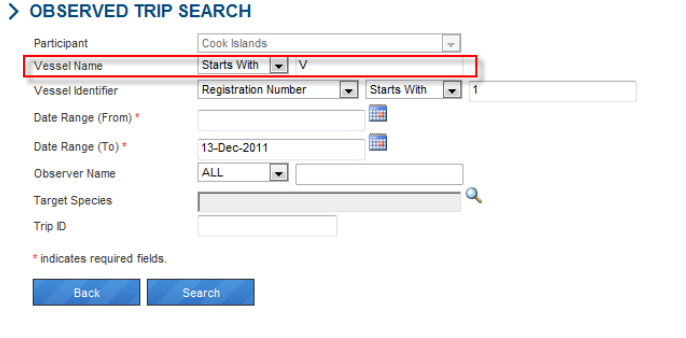

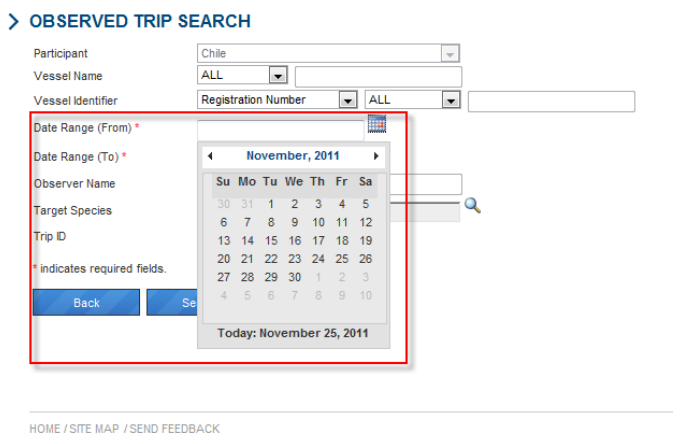

Step	Action
1	<p>Click on the Observed Trip Data link in the left hand navigation bar.</p>  <p>The Observed Trip Data Search will open.</p>

Step	Action
	<p>The screenshot shows the SPRFMO website's 'OBSERVED TRIP SEARCH' page. At the top, there is a navigation menu with links: HOME, ABOUT SPRFMO, MEETINGS, INTERIM MEASURES, DATA (highlighted), SWG, D&IWG, NEWS, LINKS, and CONTACTS. Below the menu, there is a breadcrumb trail 'Main Menu > Observed Trip Search' and a link for 'CHANGE PASSWORD / LOGOUT'. The main heading is '> OBSERVED TRIP SEARCH'. The form contains the following fields: <ul style="list-style-type: none"> Participant: A dropdown menu with 'Chile' selected. Vessel Name: A dropdown menu with 'ALL' selected and a text input field. Vessel Identifier: A dropdown menu with 'Registration Number' selected, another dropdown with 'ALL' selected, and a text input field. Date Range (From) *: A text input field with a calendar icon. Date Range (To) *: A text input field with '25-Nov-2011' entered and a calendar icon. Observer Name: A dropdown menu with 'ALL' selected and a text input field. Target Species: A text input field with a magnifying glass icon. Trip ID: A text input field. A note below the form states '* indicates required fields.' At the bottom of the form are two buttons: 'Back' and 'Search'. At the very bottom of the page, there are links for 'HOME / SITE MAP / SEND FEEDBACK'.</p>

The following search fields are available:

Search field	Description										
Participant	This defaults to your own Participant name and is read only. You can only search for Observed Tripp Data that matches your Participant Name.										
Vessel Name	<p>The default for this field is All. Leave the default and search for all Vessel Names or select one of the Search Types from the drop down list:</p> <table border="1"> <thead> <tr> <th>Search type</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>All</td> <td>Use this if you want the search to return all Vessel Names that meet your criteria. Selecting All will disable the free text field.</td> </tr> <tr> <td>Starts With</td> <td>Use this if you have entered the start of the Vessel's name.</td> </tr> <tr> <td>Contains</td> <td>Use this if you have entered part of the Vessel's name.</td> </tr> <tr> <td>Matches</td> <td>Use this if you have entered the Vessel's name exactly as it is recorded in SPRFMO.</td> </tr> </tbody> </table>	Search type	Description	All	Use this if you want the search to return all Vessel Names that meet your criteria. Selecting All will disable the free text field.	Starts With	Use this if you have entered the start of the Vessel's name.	Contains	Use this if you have entered part of the Vessel's name.	Matches	Use this if you have entered the Vessel's name exactly as it is recorded in SPRFMO.
Search type	Description										
All	Use this if you want the search to return all Vessel Names that meet your criteria. Selecting All will disable the free text field.										
Starts With	Use this if you have entered the start of the Vessel's name.										
Contains	Use this if you have entered part of the Vessel's name.										
Matches	Use this if you have entered the Vessel's name exactly as it is recorded in SPRFMO.										

Step	Action

5.8 Bottom Fishing Footprint Search

You can use the Bottom Fishing Footprint Search to locate Bottom Fishing Footprint records held in the SPRFMO database.

The Bottom Fishing Footprint Search allows you to view records uploaded to the SPRFMO database. You can refine the number of records returned by reducing the size of the search rectangle

5.8.1 How to use the Bottom Fishing Footprint Search

Step	Action
1	<p>Click on the Bottom Fishing Footprint link in the left hand navigation bar.</p>  <p>The Bottom Fishing Footprint Search will open.</p>

Step	Action						
	<p>> BOTTOM FISHING FOOTPRINT SEARCH</p> <p>Please select footprint files to search – at least 1 file must be selected:</p> <table border="1" data-bbox="387 360 754 439"> <tr> <td><input checked="" type="checkbox"/></td> <td>Cook Islands (COK), 1965 - 1967, Trawling</td> </tr> <tr> <td><input type="checkbox"/></td> <td>New Zealand (NZL), 2002 - 2006, Trawling</td> </tr> </table> <p>Search Rectangle</p> <p>Top left (NW) Corner Coordinate</p> <p>Latitude <input type="text" value="90"/> N Longitude <input type="text" value="5"/> E</p> <p>Bottom right (SE) Corner Coordinate</p> <p>Latitude <input type="text" value="90"/> S Longitude <input type="text" value="5"/> W</p> <p>Note: Footprint segments which fall only partially within the boundaries of the search rectangle will be included in the search result set.</p> <p>* indicates required fields.</p>	<input checked="" type="checkbox"/>	Cook Islands (COK), 1965 - 1967, Trawling	<input type="checkbox"/>	New Zealand (NZL), 2002 - 2006, Trawling		
<input checked="" type="checkbox"/>	Cook Islands (COK), 1965 - 1967, Trawling						
<input type="checkbox"/>	New Zealand (NZL), 2002 - 2006, Trawling						
2	<p>Select a Footprint data set to search from the list of Footprint Files displayed by clicking on the box to the left of the file name. To return results you must select at least one data set.</p> <p>> BOTTOM FISHING FOOTPRINT SEARCH</p> <p>Please select footprint files to search – at least 1 file must be selected:</p> <table border="1" data-bbox="387 1122 794 1211"> <tr> <td><input checked="" type="checkbox"/></td> <td>Cook Islands (COK), 1965 - 1967, Trawling</td> </tr> <tr> <td><input type="checkbox"/></td> <td>New Zealand (NZL), 2002 - 2006, Trawling</td> </tr> </table> <p>Search Rectangle</p> <p>Top left (NW) Corner Coordinate</p> <p>Latitude <input type="text" value="90"/> N Longitude <input type="text" value="5"/> E</p> <p>Bottom right (SE) Corner Coordinate</p> <p>Latitude <input type="text" value="90"/> S Longitude <input type="text" value="5"/> W</p> <p>Note: Footprint segments which fall only partially within the boundaries of the search rectangle will be included in the search result set.</p> <p>* indicates required fields.</p>	<input checked="" type="checkbox"/>	Cook Islands (COK), 1965 - 1967, Trawling	<input type="checkbox"/>	New Zealand (NZL), 2002 - 2006, Trawling

5.9 Seamount Data and VME Search

This Seamount Data and Vulnerable Marine Ecosystem (VME) screen allows you to search for seamount and VME records held in the SPRFMO Database.

As at December 2011, SPRFMO had not yet designated any areas as actual VMEs. Therefore, this screen can currently only be used to search for the location of seamounts.

5.9.1 How to use the Seamount Data and VME Search

Step	Action
1	<p data-bbox="357 651 1246 712">Click on the Seamount & Vulnerable Marine Ecosystem link in the left hand navigation bar.</p> <div data-bbox="357 757 668 1700" style="border: 1px solid #ccc; background-color: #e6f2ff; padding: 10px;"><p data-bbox="376 775 475 801">SEARCH</p><hr/><p data-bbox="397 853 539 875">Vessel Details</p><p data-bbox="397 900 600 947">Fishing Activity Data (agg)</p><p data-bbox="397 969 539 992">Landings Data</p><p data-bbox="397 1014 496 1037">VMS Data</p><p data-bbox="397 1059 592 1081">Observed Trip Data</p><p data-bbox="397 1104 635 1126">Bottom Fishing Footprint</p><p data-bbox="397 1149 624 1171" style="border: 2px solid red;">Seamount & VME Data</p><p data-bbox="376 1249 536 1276">SUBMIT DATA</p><hr/><p data-bbox="397 1328 596 1350">Bulk File Submission</p><p data-bbox="376 1429 488 1456">REPORTS</p><hr/><p data-bbox="397 1507 584 1554">Annual Catch Data Summary</p><p data-bbox="397 1576 647 1599">Annual 5x5 (Single Year)</p><p data-bbox="397 1621 555 1668">Annual 5x5 (Multiple Years)</p></div> <p data-bbox="357 1753 916 1780">The Seamount Data and VME Search will open.</p>

6 Reports

6.1 Introduction

There are four reports available in SPRFMO:

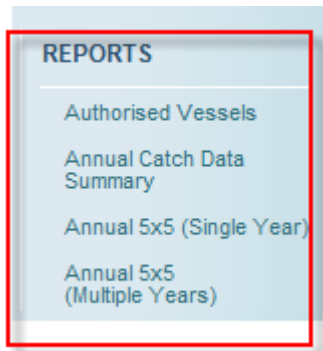

- Authorised Vessel Report
- The Annual Catch Data Summary
- Annual 5x5 (Single Year)
- Annual 5x5 (Multiple Years)

Reports can be accessed from the SPRFMO Database Main Menu.

The screenshot displays the South Pacific Regional Fisheries Management Organisation (SPRFMO) website interface. At the top, the organization's name is prominently displayed in white text against a blue background. Below this, a navigation menu includes links for HOME, ABOUT SPRFMO, MEETINGS, INTERIM MEASURES, DATA (which is highlighted), SWG, D&IWG, NEWS, LINKS, and CONTACTS. A secondary navigation bar contains 'Main Menu' and a link for 'CHANGE PASSWORD / LOGOUT'. The main content area is divided into a left sidebar and a main panel. The sidebar contains sections for 'SEARCH' (listing Vessel Details, Fishing Activity Data (agg), Landings Data, VMS Data, Observed Trip Data, Bottom Fishing Footprint, and Seamount & VME Data), 'SUBMIT DATA' (with a link for Bulk File Submission), and 'REPORTS' (which is highlighted with a red border and lists Annual Catch Data Summary, Annual 5x5 (Single Year), and Annual 5x5 (Multiple Years)). The main panel features a heading '> SPRFMO DATA HOLDINGS'.

Select the Report you wish to generate by clicking on the appropriate link.

The report screen will open.

6.1.1 Report Buttons

The following Buttons are available on each report screen:

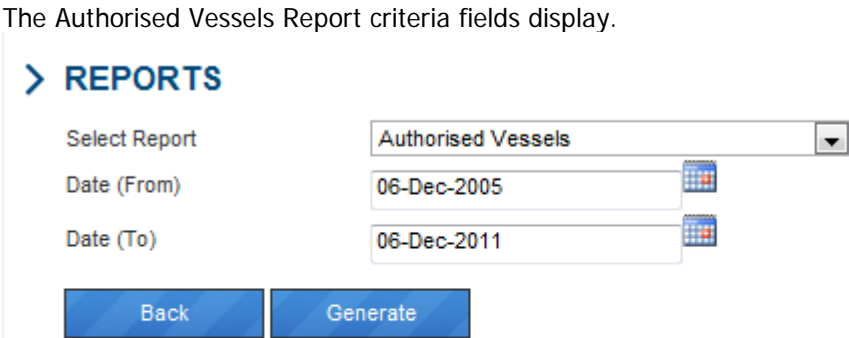

Button	Function
Back	Use this button to return to the previous screen
Generate	Use this button to generate your report

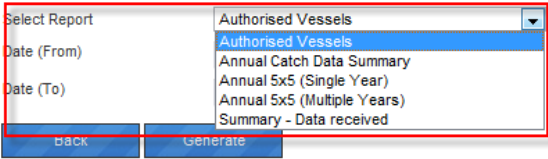

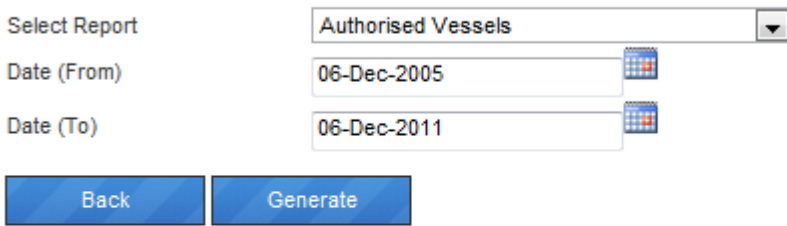

6.2 Authorised Vessels Report

NOTE: THIS REPORT WILL NOT BE VISIBLE TO PARTICIPANT USERS UNTIL SHORTLY AFTER THE INITIAL RELEASE OF THE APPLICATION.

The Authorised Vessels Report allows participants to view information about authorised vessels within a specified data range.

6.2.1 How to use the Authorised Vessels Report

Step	Action				
1	<p>Click on the Vessel Details link in the left hand navigation bar.</p>  <p>The Authorised Vessels Report criteria fields display.</p> 				
2	<p>To generate the report you must select the report criteria using the report criteria fields. You can either leave the report criteria defaults or change the criteria to return a select set of results.</p> <p>The following report criteria fields are available:</p> <table border="1" data-bbox="357 1883 1382 2040"> <thead> <tr> <th data-bbox="357 1883 608 1966">Report criteria field</th> <th data-bbox="608 1883 1382 1966">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="357 1966 608 2040">Select Report</td> <td data-bbox="608 1966 1382 2040">You can use this field to change the report type. 6.2.2 Viewing Authorised Vessels Report

NOTE: THIS REPORT IS NOT YET VISIBLE TO PARTICIPANT USERS.

The Authorised Vessels Report will open below the report criteria fields. From the Authorised Vessels Report screen you can view or export your report. The report is read only.

There may be multiple rows of data for a single vessel, either because there have been several different authorisations during the period selected, or because some key information about the vessel (such as the vessel name) has changed during the period. Where a vessel does not have an IMO number (and its name, call sign and participant may have changed over time), it is uniquely identified within this report with an ID number. This ID number is generated when the report is run, purely for the purpose of distinguishing rows applying to different vessels. The same numbers may be allocated to different vessels when the report is re-run.

6.2.2.3 Printing your report

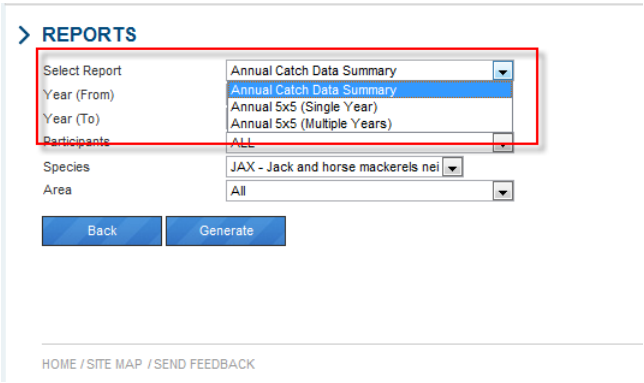

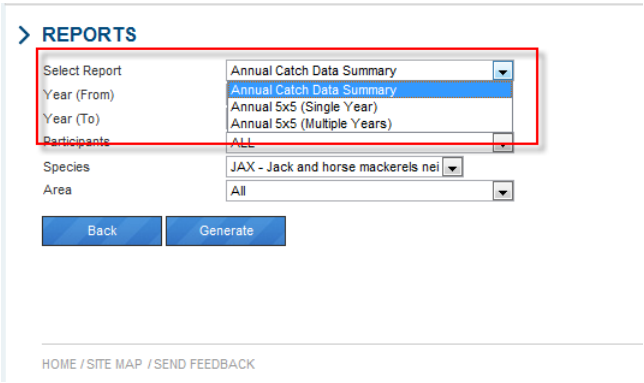

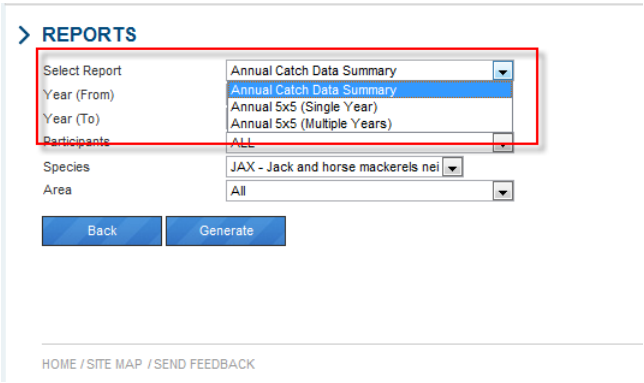

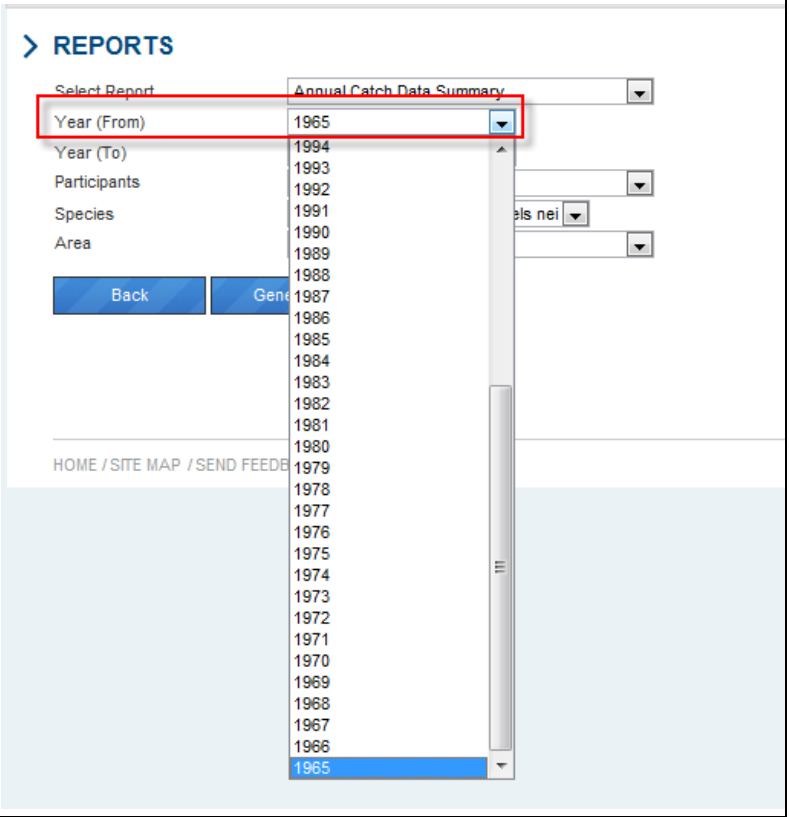

To print the report, click on the Print  button.

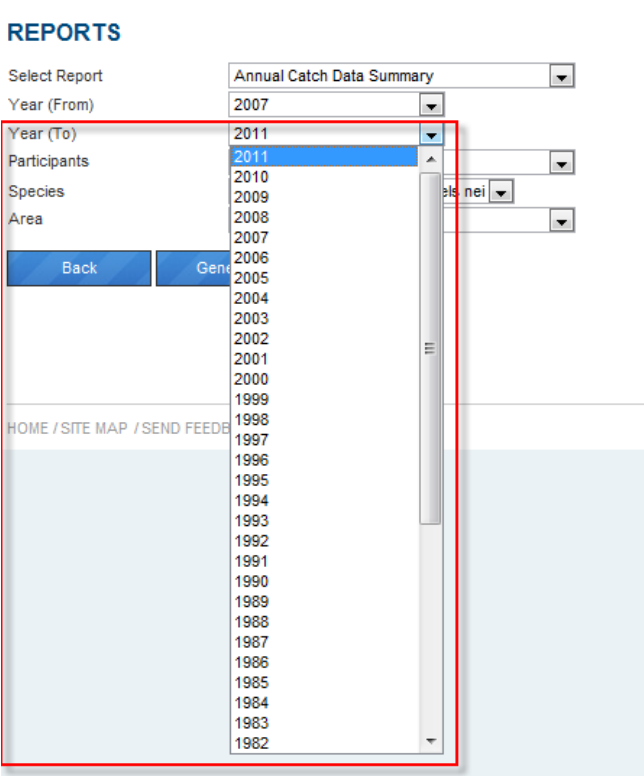

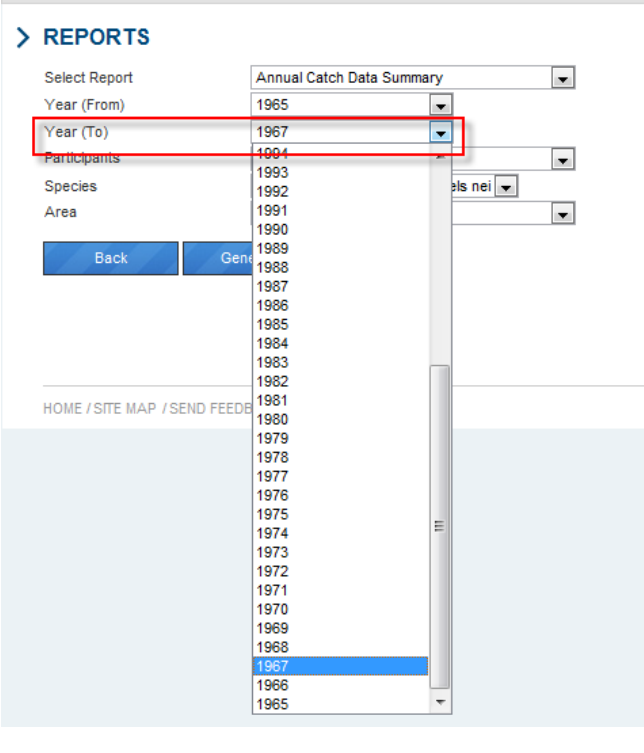

6.3 Annual Catch Data Summary Report

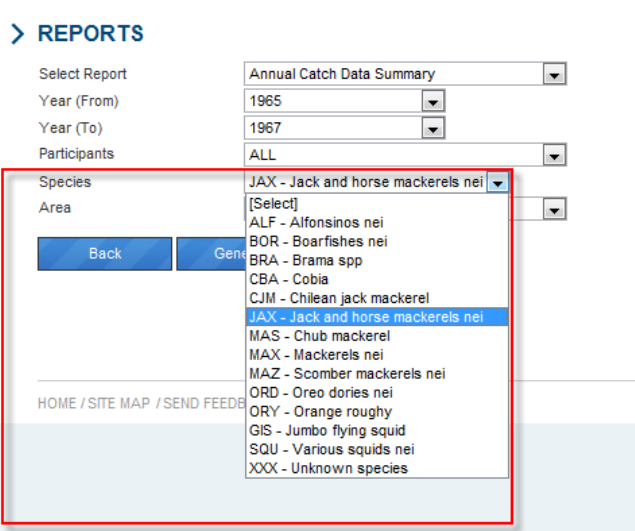

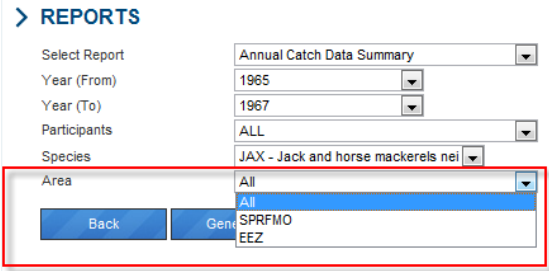

The Annual Catch Data Summary Report is a report on retained annual catch by species per participant, area and year. The report results are colour-coded to indicate whether the catch was identified as landed live weight i.e. landed catches raised to live weight (light grey shading), estimated live weight (blue shading), or unknown (no shading) – see legend. Catches can also be viewed for just SPRFMO areas, just EEZ areas, or all areas.

6.3.1 How to use Annual Catch Data Summary Report

Step	Action
1	<p>Click on the Annual Catch Data Summary link in the left hand navigation bar.</p>  <p>The Annual Catch Data Summary Report criteria fields display.</p>  <p>HOME / SITE MAP / SEND FEEDBACK</p>
2	<p>To generate the report you must select the report criteria using the report criteria fields. You can either leave the report criteria defaults or change the criteria to return a select set of results.</p>

Step	Action				
	<p>The following report criteria fields are available:</p> <table border="1" data-bbox="416 322 1447 936"> <thead> <tr> <th data-bbox="416 322 639 405">Report criteria field</th> <th data-bbox="639 322 1447 405">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="416 405 639 936">Select Report</td> <td data-bbox="639 405 1447 936"> <p>You can use this field to change the report type. Select the report type from the drop down list. The default is Annual Catch Data Summary.</p>  </td> </tr> </tbody> </table>	Report criteria field	Description	Select Report	<p>You can use this field to change the report type. Select the report type from the drop down list. The default is Annual Catch Data Summary.</p> 
Report criteria field	Description				
Select Report	<p>You can use this field to change the report type. Select the report type from the drop down list. The default is Annual Catch Data Summary.</p> 				
	<p>Year (From)</p> <p>Use this field to define the date range. The report will return results from the Year (From) date only. The default is 2007. Use the default or select a year from the drop down list.</p> 				
	<p>Year (To)</p> <p>Use this field to define the date range. The report will return results up to the Year (To) date only. The default is 2007. Use the default or select a year from the drop down list.</p>				

Step	Action
	<p>REPORTS</p> <p>Select Report <input type="text" value="Annual Catch Data Summary"/></p> <p>Year (From) <input type="text" value="2007"/></p> <p>Year (To) <input type="text" value="2011"/></p> <p>Participants <input type="text" value="2011"/></p> <p>Species <input type="text" value=""/></p> <p>Area <input type="text" value=""/></p> <p><input type="button" value="Back"/> <input type="button" value="Generate"/></p> <p>HOME / SITE MAP / SEND FEEDBACK</p> 
Participants	<p>The default is to display data for all Participants. If you wish to view only that data submitted by a particular Participant, select that Participant from the drop down list.</p> <p>> REPORTS</p> <p>Select Report <input type="text" value="Annual Catch Data Summary"/></p> <p>Year (From) <input type="text" value="1965"/></p> <p>Year (To) <input type="text" value="1967"/></p> <p>Participants <input type="text" value=""/></p> <p>Species <input type="text" value=""/></p> <p>Area <input type="text" value=""/></p> <p><input type="button" value="Back"/> <input type="button" value="Generate"/></p> <p>HOME / SITE MAP / SEND FEEDBACK</p> 
Species	<p>Select a Species from the drop down list. Only data for the Species selected will be displayed.</p>

Step	Action
	<p>The default is JAX – ‘Jack and horse mackerels nei’. There are two species groups within this list – “JAX” (Jack and horse mackerels) and “MAZ”. If you select “JAX”, then the report extract will display the associated catch data reported against any of the sub-species codes for the JAX group which are all the different kinds of jack or horse mackerel: . HOM, JAA, JJM, CJM, PJM, HMM, RSC, HMC, HMZ, HMD, TUD, TUJ and TUZ. If you select MAZ (<i>Scomber</i> mackerels), then the report extract will display the associated catch data reported against all of the sub-species codes for the MAZ group which are all the chub mackerels MAS, MAC and MAA.</p> 
	<p>Area</p> <p>Select an Area from the drop down list. The default is SPRFMO (High Seas) areas. Use the drop down list to change the area to EEZ (Exclusive Economic Zone) to view only that data reported as being taken within EEZs.</p> 
3	<p>When you have completed the report criteria click on Generate to generate the report.</p>

Step	Action																		
	<p data-bbox="432 271 639 309">> REPORTS</p> <p data-bbox="475 333 612 360">Select Report</p> <p data-bbox="475 374 601 400">Year (From)</p> <p data-bbox="475 414 576 441">Year (To)</p> <p data-bbox="475 454 593 481">Participants</p> <p data-bbox="475 495 560 521">Species</p> <p data-bbox="475 535 531 562">Area</p> <p data-bbox="788 333 1267 360">Annual Catch Data Summary</p> <p data-bbox="788 374 1083 400">1965</p> <p data-bbox="788 414 1083 441">1967</p> <p data-bbox="788 454 1267 481">ALL</p> <p data-bbox="788 495 1182 521">JAX - Jack and horse mackerels nei</p> <p data-bbox="788 535 1267 562">All</p> <p data-bbox="475 589 900 645"> <input type="button" value="Back"/> <input type="button" value="Generate"/> </p>

L - Landed live weight (landed catches raised to live weight)

The colour-coded report legend can be viewed by scrolling to the bottom of the report.

Annual Catch Totals (live weight of retained catches)

L - Landed live weight (landed catches raised to live weight)

E - Estimated live weight

U - Live weight (Unknown if type 'L' or 'E')

6.3.2.1 Report Buttons

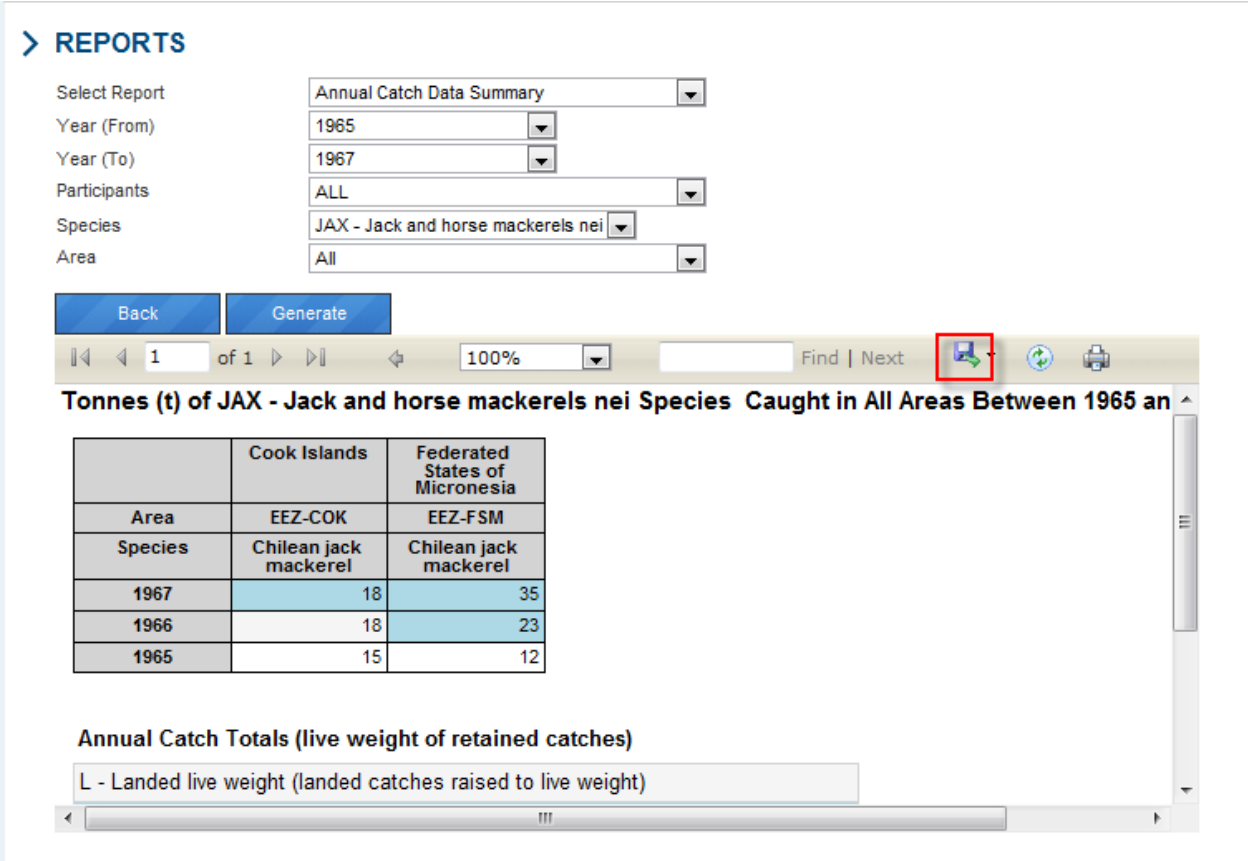

The following Buttons appear on the bar above on each report:

Button	Function
Export 	Use this button to export your search results
Refresh 	Use this button to refresh your report.
Print 	Use this button to print your report.

6.3.2.2 Exporting your report

To export your report, click on the Export  button and select from Excel, Word or PDF.

The screenshot shows a web interface for generating reports. It includes a 'REPORTS' section with several filter dropdowns: 'Select Report' (Annual Catch Data Summary), 'Year (From)' (1965), 'Year (To)' (1967), 'Participants' (ALL), 'Species' (JAX - Jack and horse mackerels nei), and 'Area' (All). Below the filters are 'Back' and 'Generate' buttons. A browser toolbar is visible with a red box around the 'Export' icon. The main content area displays a table titled 'Tonnes (t) of JAX - Jack and horse mackerels nei Species Caught in All Areas Between 1965 and 1967'. The table has columns for 'Area', 'Species', 'Cook Islands', and 'Federated States of Micronesia'. The data is as follows:

	Cook Islands	Federated States of Micronesia
Area	EEZ-COK	EEZ-FSM
Species	Chilean jack mackerel	Chilean jack mackerel
1967	18	35
1966	18	23
1965	15	12

Below the table, there is a section for 'Annual Catch Totals (live weight of retained catches)' with a text input field containing 'L - Landed live weight (landed catches raised to live weight)'.

The report will open in your chosen format, and will also be colour-coded.

6.3.2.3 Printing your report

To print the report, click on the Print  button.

6.4 Annual 5x5 Single Year and Multiple Years Reports

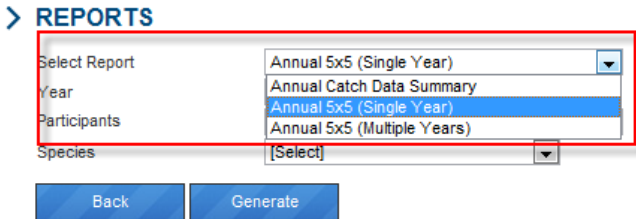

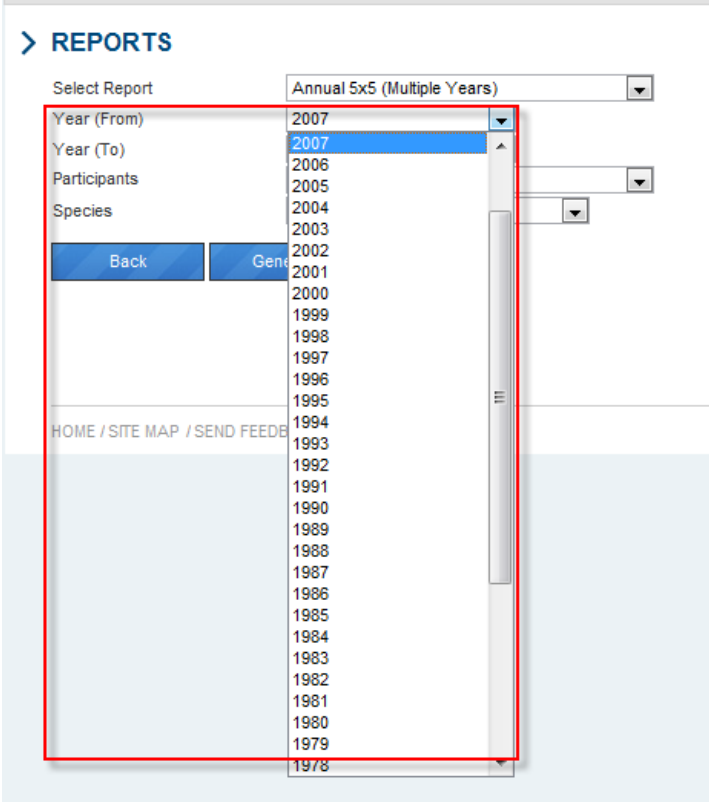

The Annual 5X5 Catch Data Report reports on catch data aggregated by the location of fishing to within 5 degree latitude by 5 degree longitude squares. Two variants of the report allow you find the data for a single year (all participants at once) or multiple years (for a single participant).

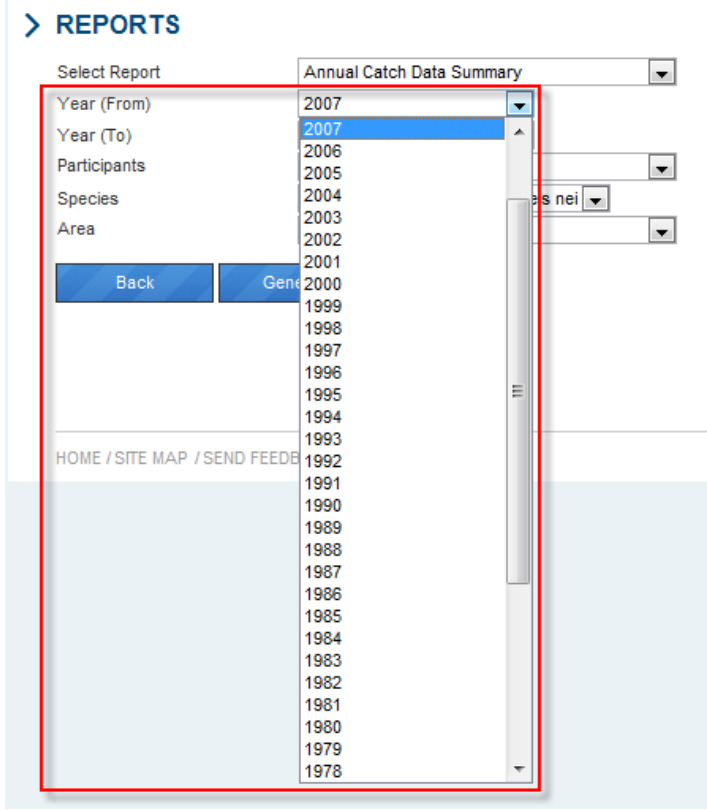

Data that has been provided to SPRFMO but which represents fishing by fewer than 3 individual vessels is not made available on the website. This is indicated with an **X** in the relevant field.

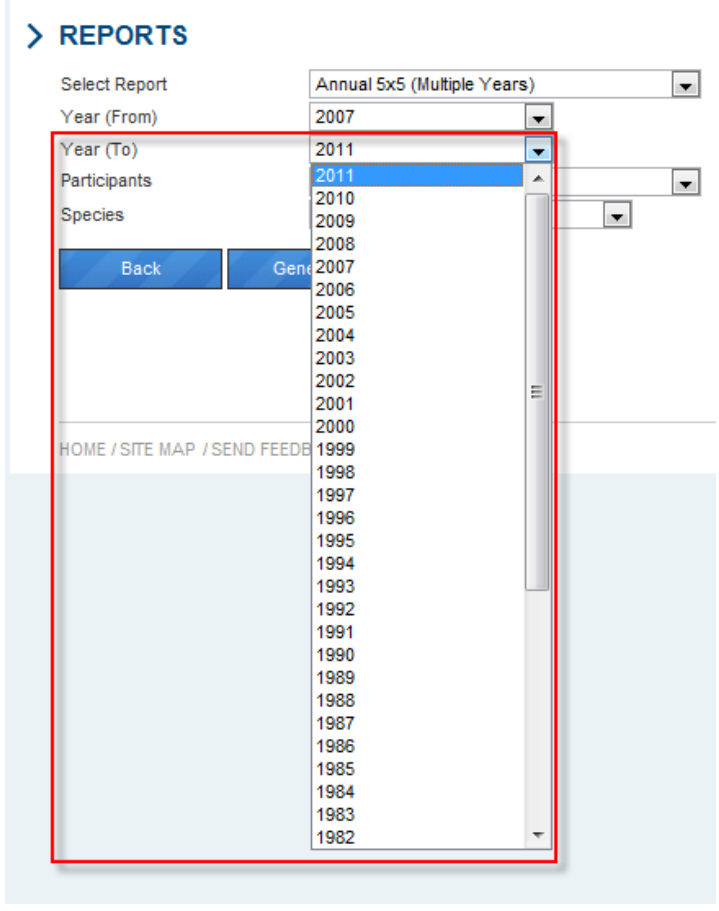

6.4.1 How to use the Annual 5x5 Single Year and Multiple Years reports

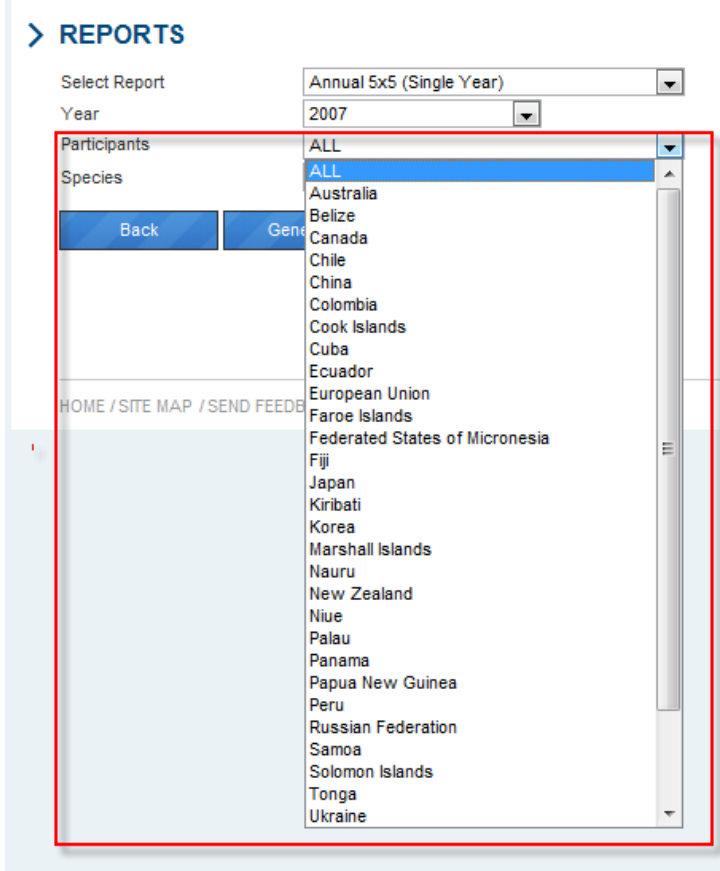

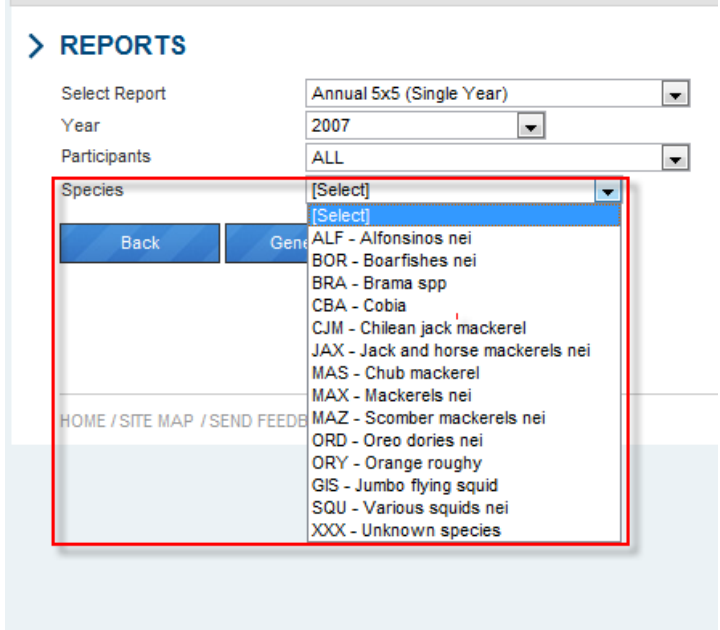

Step	Action
1	<p>To access the Annual 5x5 Single Year or Multiple Years Reports click on the Annual 5x5 (Single Year) or (Multiple Years) report link in the Main Menu.</p>  <p>The Annual 5x5 (Single Year) or (Multiple Years) report criteria will open depending on which report type you selected.</p>

7. Data Submission (Participant administrator users only)

If you have been given Participant Administrator access to the SPRFMO Database, then you are also able to use the application to submit data files to SPRFMO. The files must be in the Excel standard template formats that are available on the website.

Any file you upload will be sent to the SPRFMO Data Manager for validation, and if accepted, it will then be loaded into the SPRFMO database.

7.4.3 To Upload a file

Step	Action
1	<p data-bbox="320 600 1198 663">To open the data submission screen, click on the Bulk File Submission link from the Main Menu.</p> <div data-bbox="320 696 628 1637"><p data-bbox="339 712 435 741">SEARCH</p><hr/><p data-bbox="359 790 501 815">Vessel Details</p><p data-bbox="359 837 560 887">Fishing Activity Data (agg)</p><p data-bbox="359 907 501 931">Landings Data</p><p data-bbox="359 954 459 978">VMS Data</p><p data-bbox="359 1001 552 1025">Observed Trip Data</p><p data-bbox="359 1048 595 1072">Bottom Fishing Footprint</p><p data-bbox="359 1095 579 1120">Seamount & VME Data</p><p data-bbox="339 1189 496 1218">SUBMIT DATA</p><hr/><p data-bbox="359 1267 560 1292">Bulk File Submission</p><p data-bbox="339 1364 448 1393">REPORTS</p><hr/><p data-bbox="359 1442 544 1491">Annual Catch Data Summary</p><p data-bbox="359 1514 608 1538">Annual 5x5 (Single Year)</p><p data-bbox="359 1561 512 1610">Annual 5x5 (Multiple Years)</p></div> <p data-bbox="320 1641 820 1671">The Bulk File Submission screen will open.</p>
