

14TH MEETING OF THE SPRFMO COMMISSION

Panama City, Panama, 1 to 6 March 2026

COMM 14 – Doc 09

PR2 Recommendations Allocation to COMM – Implementation Plan

Chairperson of the PR2IWG

The Second Performance Review (PR2) of the South Pacific Regional Fisheries Management Organisation was undertaken in 2024, which resulted in a set of 24 recommendations aimed at enhancing the functioning of the Organisation and improving its overall effectiveness. At its 13th Annual Meeting, the Commission agreed to establish an Intersessional Working Group (PR2 IWG) tasked with drafting an Implementation Plan to ensure the effective follow-up of the relevant PR2 recommendations. This working paper conveys the Implementation Plan.

The Commission is asked to:

- consider, amend and adopt the draft Implementation Plan, which includes:
 - Confirming that the Commission agree with each recommendation;
 - Confirming the Commission’s level of priority for each recommendation;
 - Confirming the assignment of each recommendation to the relevant responsible body(ies) for appropriate action;
 - Agreeing on a timeline in which the recommendation can be achieved; and,
 - Proposing viable options for responding to each recommendation.

Acceptance (in full or in part) or rejection of each recommendation is a decision for the Commission – the work of the Working Group outlined in this section was aimed at supporting the Commission to make this determination.

1	<p>The Review Panel recommends facilitating an annual strategic discussion aimed at producing a Statement of Intent that outlines where the Commission wants to be in 5 to 10 years and signals how it intends to get there. This should include how the Commission plans to address emerging issues such as climate change and BBNJ, among others.</p>	<p>Agree? (In-full or in-part)? In-part</p> <p>IWG Priority (low, medium, high): Low</p> <p>IWG Comments to COMM: While the IWG noted the benefit of a Statement of Intent, the IWG were mindful of not creating another process and agreed that this is a low priority and aspirational, noting the other priorities the Commission has on hand.</p> <p>The IWG noted that instead of a statement of intent, discussions around strategic planning could feed into the 3-year workplans for subsidiary bodies and the Commission, or the Business Plan.</p>	N/A	N/A	N/A			COMM?		

		Regarding addressing emerging issues such as climate change and BBNJ etc, the IWG suggested that this could be captured in other business or as standing agenda items.								
2	The Review Panel recommends the development of a Business Plan with a three-year planning horizon and an associated budget. The first Business Plan should include a review and enhancement of the Headquarters Agreement with the New Zealand Government.	<p>Agree? (In-full or in-part)?</p> <p>In-part (agreement to Business Plan with three-year planning horizon, no consensus on review and HQA update).</p> <p>IWG Priority (low, medium, high):</p> <p>Business Plan - High HQA - Low</p> <p>IWG Comments to COMM:</p> <p>The IWG noted the comments from the IWG Meeting 1 and 2. As a first step, the Commission will need to agree to this recommendation and an indicative timeline for this work.</p> <p>The IWG also noted that there should be opportunity for Members to comment on a draft Business Plan.</p> <p>The IWG noted that Commission guidance is needed on whether this is</p>	SC has started thinking about how its workplan can be translated into a three-year planning horizon including consideration of resources.	<i>To be completed during CTC</i>	<i>To be completed during FAC</i>				COMM, FAC, CTC, SC?

3	<p>The Review Panel recommends that the Commission improve its direction to subsidiary bodies, the Data Working Group, and the Secretariat by approving their work plans/programmes through the proposed integrated business plan, with a three-year planning horizon and associated budget/funding model. Commission oversight can be strengthened by assessing the performance of the subsidiary bodies and Secretariat against their components of the proposed Business Plan. This would involve developing a Workplan for the CTC and FAC, improving the approach to the SC Multiannual Work Plan, and developing an Operational Plan for the</p>	<p>Agree? (In-full or in-part)? 		Secretariat Operational Plan is aligned with other documents.							
4	Recruit a competent Executive Secretary with proven leadership, executive management, organisational development, and results-oriented skills that can drive the necessary internal reforms to improve the Secretariat's operational performance and support the Commission's strategic objectives. An understanding of the strategic importance of information management systems would also be an advantage to the organisation. The Executive Secretary should be provided with a performance agreement linked to Key Performance Indicators (KPIs) in the approved Business Plan.	<p>Agree? (In-full or in-part) In-full</p> <p>IWG Priority (low, medium, high): High</p> <p>IWG Comments to COMM: The IWG noted the decision made at COMM13 on the staff regulations to meet this recommendation. The IWG supported the adoption of performance reviews to maintain accountability, but noted the need to avoid applying multiple processes or lines of governance. Note that in other RFMOs like in SIOFA, an annual performance evaluation form has been agreed and developed to assess Secretariat staff performance. Commission guidance is needed on whether they agree with this recommendation (including priority level) and the development of a performance evaluation doc, or if an evaluation</p>	N/A	N/A	N/A			COMM?	

		document is covered under the COMM13 staff regulations decision.							
5	Carry out an independent review of the Headquarters Agreement to ensure it is fit for purpose.	<p>Agree? If disagree, then the Commission's guidance on whether the objective of supporting Secretariat staff can be achieved through other alternatives such as a review/update of the Staff Regulations and Financial Regulations, which might be a more swift and reactive way to resolve any immediate issues.</p> <p>The IWG noted that a member would likely need to volunteer to submit a proposal for consideration at next COMM.</p>							
6	<p>Develop a Secretariat Business Plan with a three-year planning horizon and an associated budget. The first Business Plan, with specific and measurable KPIs, should include:</p> <ul style="list-style-type: none"> • A staffing plan and associated organisational arrangements • Cultural improvement plan 	<p>Agree? (In-full or in-part)?</p> <p>In-part (the IWG agree with the development of a Business Plan including a staffing plan. 	<ul style="list-style-type: none"> • The development of systems and processes to implement the staffing and financial regulations to meet international best practice and in a fair and consistent manner. • Support for the Information Management Strategy and Data Plan • Support for the Commission and its subsidiary bodies and the Data Working Group. • Support for the independent review of the Headquarters Agreement with the New Zealand Government 	<p>The IWG noted there is support for a Business Plan which should include a Staffing Plan, and noted that other elements of the Plan can be further explored and discussed. However, the specifics of these elements need guidance from the Commission. The IWG also noted that a focus should be placed on an indicative timeline for this work (i.e. what needs to be done in which year and when).</p> <p>As a first step, the Commission should provide guidance on whether they agree with the development of a Business Plan which includes a staffing plan, in which the other listed elements can be discussed as part of the Commission tasking the work to the relevant responsible area.</p>								
7	<p>The Commission should develop an Information Management Strategy and Data Management Plan, placing a high priority on improving its overall approach to information management. This could draw on the SC's existing</p>	<p>Agree? (In-full or in-part)? 8	<p>The Commission should elevate the Data Working Group to a standalone body reporting directly to the Commission and reconsider its title and mandate in light of the issues identified by the Review Panel.</p>	<p>Agree? 9	The Commission should work towards conducting a comprehensive review of CMM 02-2022, following the development of the Information Management Strategy and Data Management Plan, as part of the Business Plan.	<p>Agree? (In-full or in-part)? In-full</p> <p>IWG Priority (low, medium, high): High</p> <p>IWG Comments to COMM: The IWG noted that it is for the Commission to consider and agree a review of CMM 02-2022. The IWG requested guidance from the Commission on an indicative timeline. The IWG noted this can be carried out by the DWG. The IWG also noted that a review should not just focus on data gaps, but also the data collection methodology. The IWG noted that the review should identify opportunities for additional data but also focus on making current processes more efficient.</p>	SC13 partially addressed this with advice to COM14 on CMM02 changes. This could also be enhanced through processes such as MSE.</p> <p>The IWG noted that achieving compatibility between high seas and national jurisdictions is a complex challenge. The IWG note that the Commission should confirm if the current data sharing and stock assessment work is not sufficient to achieve this recommendation. If not, then the Commission should discuss ways to incentivise improved cooperation and compatibility, or request</p>	<p>cooperation in relation to high seas and adjacent national jurisdictions through data sharing and stock assessment. 11	<p>Jack mackerel - Undertake analysis of the jack mackerel fishery's impact on other fish stocks and the broader ecosystem. Provide scientific recommendations based on these reviews and adopt relevant management decisions as necessary, with particular attention to chub mackerel, protected species and species of concern.</p>	<p>Agree? (In-full or in-part)? 12	<p>Squid - To ensure effective and timely management of the squid fishery, it is essential to execute all tasks related to squid as outlined in the SC's Multiannual Workplan, which should be integrated into the broader Business Plan. This includes prioritising the development of management strategy evaluations (MSE) and harvest control rules (HCR), ensuring that work is directed and resourced in a more thoughtful and strategic manner, as part of an overall effort to achieve SPRFMO's long-term objectives.</p> <p>The Commission shall also consider alternative options if the stock assessment cannot be completed or if it is not suitable for management purposes.</p>	<p>Agree? (In-full or in-part)? In-full</p> <p>IWG Priority (low, medium, high): Medium/high</p> <p>IWG Comments to COMM: The IWG noted the comments from the SC that they do not have a clear mandate on this recommendation until instructed by the Commission, but MSE, HCR and alternative options to the stock assessment including their timing are already being considered as part of the SC multiannual workplan.</p> <p>The IWG recommends that the Commission provide clear instructions on progressing the development of one or all of the elements.</p>	<p>The planning and timelines for these three elements are important and the subject of the SC multiannual workplan.</p>	<p>N/A</p>	<p><i>To be completed during FAC</i></p>			<p>SC – Squid Working Group (SWG); FAC; COMM?</p>

	<p>sharing to facilitate the assessment.</p>	<p>The IWG reaffirmed the importance of data from areas under national jurisdiction to support squid stock assessments.</p> <p>The IWG noted the main challenges for progressing squid stock assessments is data availability, which is beyond the scope of the SC, also noting coastal states for squid have not provided their consent for CMM 02-2025 and CMM 18-2025 to apply in areas under national jurisdiction.</p> <p>The IWG noted that this goes beyond the scope of the subsidiaries and requires Commission discussion on whether this is something SPRFMO and Members with squid fisheries in areas under national jurisdiction hope to achieve in the medium to long term, noting that this is dependent on coastal states in sharing the data.</p>								
14	<p>Squid - Increase the observer coverage rate to generate relevant data that supports the SC's work, addressing both the targeted squid fishery and</p>	<p>Agree? (In-full or in-part)? While there was broad agreement to addressing squid data gaps, there was no consensus on whether increasing observer coverage is the way to achieve this objective.</p> <p>The IWG noted that this recommendation requires further discussion in Commission.</p>								
15	<p>Squid - Given the uncertainties regarding the current fishing capacity, consider further precautionary measures, including strengthening fishing effort limitations.</p>	<p>Agree? 		<p>The IWG noted the logical sequencing for this recommendation starts with completing the stock assessment and then exploring this recommendation. However, it was noted that this recommendation should not be fully dependent on the stock assessment.</p> <p>The IWG supported in principle that a precautionary approach should be applied across all of SPRFMO’s fisheries.</p> <p>The IWG would ultimately need to be a Commission decision.</p> <p>As a starting point, the IWG recommended that the Commission consider any previous SC recommendations associated with this recommendation that have not been implemented.</p>								
16	<p>Squid - The Commission should ensure adequate funding and resources, including financial support, to involve scientists from academic institutions with relevant expertise. Additionally,</p>	<p>Agree? (In-full or in-part)? In-part</p> <p>IWG Priority (low, medium, high): Low</p>	<p>SC noted that funding and resourcing is reliant on FAC and Commission. This could be considered as part of the wider business planning.</p>							
17	<p>Deepwater - Investigate alternative approaches to managing these fisheries to explore whether it is possible to maintain a viable fishery in a way that is consistent with the Convention's objective.</p>	<p>Agree? (In-full or in-part)?</p> <p>In-part (The IWG do not fully agree with the rec but support that alternative approaches need to be investigated)</p> <p>IWG Priority (low, medium, high):</p> <p>Medium overall</p> <p>High (if current CMM/framework is not implemented).</p> <p>IWG Comments to COMM:</p> <p>The IWG noted that further discussion is needed by the Commission on alternative approaches and implementation of the current measure.</p>	<p>N/A</p>	<p>N/A</p>	<p>N/A</p>			<p>COMM?</p>		

		<p>The IWG noted the obligations under UNGA and noting the upcoming UN Bottom Fishing Review scheduled for 2026.</p> <p>The IWG do not fully agree that CMM 03 is not fit for purpose. However, the IWG noted the role of the Commission in investigating alternative options to overcome the current situation which is not ideal.</p>							
18	<p>Deepwater - With respect to all other fish species captured by paragraph 11 of CMM 03a, implement an operational trigger which, if met, would activate the development of more specific fisheries management measures, for example, catch limits.</p>	<p>Agree? (In-full or in-part)?</p> <p>In-part (the IWG agree that there needs to be mechanisms explored but do not think SPRFMO should limit this recommendation to operational triggers as one approach).</p> <p>IWG Priority (low, medium, high):</p> <p>Low</p> <p>IWG Comments to COMM:</p> <p>The IWG noted the work that is currently ongoing in the SC multiannual workplan on fish species captured in CMM 03a.</p> <p>The IWG agreed that there is no urgency to prioritise catch limits for other</p>	<p>Work for hapuku and blue eye trevella is on the workplan</p>	N/A	N/A			<p>SC – Deepwater Working Group (DWWG); COMM?</p>	

		<p>deepwater species given effort is so low. However, the IWG noted that the catch is spread across a number of species and consideration should be given to where the species are caught and the catch mix overall when considering management measures.</p> <p>The IWG noted that while this recommendation is specific to deepwater, this recommendation has relevance for SPRFMO's other fisheries.</p>							
19	<p>Exploratory Fisheries - The Commission and its relevant subsidiary bodies should initiate discussions to clarify how to apply Article 28 of CMM 13. This includes identifying fisheries approaching the ten-year mark and establishing a framework for transitioning them into established fisheries.</p>	<p>Agree? (In-full or in-part)? 2. Agree the terms of reference (SC13-04 Attachment 1), with an additional terms of reference to produce a standardised data collection plan.

The IWG also noted this recommendation is linked to recommendation 20, and noted that the workshop would look to address the cumulative impacts on toothfish.

The IWG noted that the Commission would need to agree to recommendation 19 and instruct SC to host a workshop and agree the terms of reference.
